Caution

Please read and observe all warnings and instructions in this owner's manual and those marked on the unit. Retain this booklet for future reference.

There are two kinds of alarm symbols as follows:

WARNING

The lightening flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to people.

CAUTION

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

WARNING

Installation of all TV monitors must be out of the driver's field of sight.

Do not mount the product where it will obstruct the deployment of the airbag or in an area where it would affect the vehicular control. Also be careful to avoid mounting the product where it can become hazardous during sudden stops or in the event of an accident.

Do not try and service these products yourself, seek only a qualified service center or factory service center.

Be careful not to drop or apply under pressure to the front panel of your video monitor. If the screen cracks due to misuse, your warranty will be void!

Be careful not to overload your cigarette lighter plug by adding more than one device at a time.

Use extra caution with any liquids in your car. If you or your child spill any liquid on these products, pull your vehicle to the roadside and turn the key off to disconnect or wipe the products with a towel. Do not operate the equipment until all liquids have either evaporated or you have had the monitor inspected at a service center by a qualified technician. Severe harm or danger can be occurred.

Use only a damp cloth to clean the screen and use only purified water on the cloth, wring out all excess water prior to wiping the screen. Do not use any cleaners or chemicals to clean the screen. In most cases a dry cloth will do!

Caution

CAUTION

Quality installations are best performed by qualified and certified installers.

Watching the monitor for an extended period of time without the engine running may deplete the vehicle's battery charge.

Don't touch the unit there is a flash of lightning. It may receive an electric shock.

This product is designed for operation with a 12 Volt DC, negative ground vehicle. It is not suitable for operation under other conditions or voltages.

Do not cover or stop up heater ducts or vents. It may be the origin of a fire or receives an electric shock.

Do not bring magnetic devices such as credit card or magnetic card near the magnets.

Check Point

1. The operating temperature of this product is limited to $-10^{\circ}\text{C} \sim +55^{\circ}\text{C}$. Your vehicle can reach temperatures up to 100°C in the summertime.
2. From time to time when your vehicle is extremely hot or cold you must allow time for your air conditioner or heater to cool or heat the vehicle and for operating temperatures to return to normal operating ranges. Your monitor will return to its normal functions when these operating ranges are achieved.
3. Your optimum picture quality is achieved when you are directly in front of the monitor (± 30 degrees).
4. Do not open covers and repair yourself. Refer servicing to qualified personnel.
5. DVD Players use an invisible laser beam which can cause hazardous radiation exposure. Be sure to operate the unit correctly as instructed.
6. Do not cut the car power supply off while a disc is playing. It can cause damage to the DVD Player.

1. Press the **STOP** button, if the disc plays.
2. To bring up the **SETUP** menu, press the **SETUP(A.MEMO)** button.

3. Use the  button to find desired items.
4. To turn off the **SETUP** menu, press the **SETUP(A.MEMO)** button again.

DVD Setup

■ General Setup

1. TV Display

You can select a TV screen aspect ratio according to your TV.
If the TV on which the movie is played "WIDE type, choose "WIDE". If it is of "4:3" type, choose NORMAL/PS(Pan & Scan) or NORMAL/LB(Letter BOX).

NORMAL / PS 4:3 PAN & SCAN

Choose this setting if you want the movie to fill the entire screen.
(This might mean that the left and right edges won't be seen)

NORMAL / LB 4:3 LETTER BOX

Choose this setting if you want to see movies in their original aspect ratio.
(The movie might appear with black bars at the top and bottom of the screen.)

WIDE 16:9 WIDE SCREEN

Choose this setting if your DVD Player is connected to a widescreen TV.
(This option is available only if the disc has a 16:9 display aspect ratio.)

Caution

This option is available only when the disc has the function.

2. Angle Mark

You can set up so that the angle mark appears on scenes.

On : When selected, the screen will be shown with angle mark.

Off : When selected, no angle mark is shown on the screen.

3. OSD Lang

Use this option to set the OSD language.

When selected, change to set the on-screen display language.

DVD Setup

4. Captions

Adjust caption selection.

On : Choose this setting to display captions.

Off : Choose this setting to close captions.

5. Screen Saver

The screen saver is useful to prevent your display from becoming damaged. The screen saver picture appears when you leave the DVD player in stop mode for about two minutes.

6. Last Memory

Adjust last memory selection.

when start your car or turn on/ off the DVD player, search the latest played scene.

When eject and close the disc, this function is not working.

■ Audio Setup

1. Dolby Digital Setup

Dual Mono

Use this function to set the input audio signal to fit into the speaker.

Dynamic

Use this function to change the setting from the factory. - Preset Off position.

DVD Setup

2. Equalizer

EQ Type

This unit can produce a 3D surround effect, using 3D Surround Sound technology.
Choose the desired preset equalizer mode.
(None, Rock, Pop, Live, Dance, Techno, Classic, Soft)

Bass Boost

This Function is enhanced at low levels without distorting other frequencies.

Super Bass

This function is more enhanced at low levels without distorting other frequencies.

Treble Boost

This function is enhanced at high levels without distorting other frequencies.

DVD Setup

Video Setup

1. Quality

Sharpness

Use this option to select screen sharpness.
Select screen sharpness using the direction ▲/▼ buttons and press the ENTER button.

Brightness

Use this option to select screen brightness.
Adjust overall screen brightness using the direction ◀/▶ buttons and press the ENTER button.

Contrast

Use this option to select screen contrast.
Select screen contrast using the direction ◀/▶ buttons and press the ENTER button.
Contrast adjusts the image quality by increasing or decreasing the ratio of bright and dark screen section.

DVD Setup

Gamma

Select screen gamma using the direction ▲/▼ buttons and press the ENTER button. Gamma adjustment is to revive the dark screen section by raising the level of dark section, while leaving the bright screen section unchanged.

Hue

Select screen hue level using the direction ◀/▶ buttons and press the ENTER button.

Saturation

Select screen saturation level using the direction ◀/▶ buttons and press the ENTER button.

Luma Delay

Select the Luma Delay menu and select the preferred video image quality.

DVD Setup

Preference

This Menu is not available when play the disc.

1. TV Type

Choose a proper operating setting according to the color system of the TV Type - Multi system, NTSC, PAL.

- 1) Press the SETUP button during stop mode.
- 2) Press the ◀/▶ buttons to move to Preference.
- 3) Press the ▲/▼ buttons to move to TV Type.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ buttons to select TV Type.

2. PBC (Play Back Control)

This feature is only available when a (Super) Video CD is loaded. It allows you to disable or enable the PBC(Play Back Control)menu of VCD discs.

- 1) Press the SETUP button during stop mode.
- 2) Press the ◀/▶ buttons to move to Preference.
- 3) Press the ▲/▼ buttons to move to PBC.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ buttons to select On/Off.

3. Audio

Use the audio language menu to select the subtitle language that you prefer. If the disc you are playing has that language available, it will display subtitles in that language.

- 1) Press the SETUP button during stop mode.
- 2) Press the ◀/▶ buttons to move to Preference.
- 3) Press the ▲/▼ buttons to move to Audio.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ buttons to select desired audio language.

4. Subtitle

Use the subtitle language menu to select the subtitle language that you prefer. If the disc you are playing has that language available, it will display subtitles in that.

- 1) Press the SETUP button during stop mode.
- 2) Press the ◀/▶ buttons to move to Preference.
- 3) Press the ▲/▼ buttons to move to Subtitle.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ buttons to select desired subtitle.

DVD Setup

5. Disc Menu

Use the Disc Menu option to select the language you want a DVD's disc menu to be displayed in (not the same as the player menu)

- 1) Press the SETUP button during stop mode.
- 2) Press the ◀/▶ buttons to move to Preference.
- 3) Press the ▲/▼ buttons to move to Disc Menu.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ buttons to select Disc Menu.

6. Parental

The Parental feature is a rating limit system, like movie ratings. It works with DVD's that have been assigned a rating. This option lets you determine how your player will react to discs that contain movies that are rated (in the U.S.A., the Motion Pictures Association of America rates movies as G, PG, PG-13, etc.). You decide which ratings require a password and which ones don't.

- 1) Press the SETUP button when stop mode.
- 2) Press the ◀/▶ buttons to move to Preference.
- 3) Press the ▲/▼ buttons to move to Parental.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ buttons to select desired parental level.

7. Country Region

Select parental region by pressing Contry Region on the screen.

- 1) Press the SETUP button when stop mode.
- 2) Press the ◀/▶ buttons to move to Preference.
- 3) Press the ▲/▼ buttons to move to Country Region.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ buttons to select desired Country Region.

8. Default

If user selects reset from the setup menu, all the value of setup menu will be initialized by factory setting value. (Exception: Parental level, Region code and Password values will not be changed)

- 1) Press the SETUP button when stop mode.
- 2) Press the ◀/▶ buttons to move to Preference.
- 3) Press the ▲/▼ buttons to move to Default.
- 4) Press the ENTER button.
- 5) Press the ENTER button to select reset.

DVD Setup

■ Password Setup

1. Password Mode

2. Password Change

- 1) Select "Password Setup"sub item.
- 2) Enter your old password, and new password in 6 digits. (The default password code is 000000)
- 3) Re-enter new password for confirmation then press the ENTER button.

Copyright protection

This product incorporates copyright protection technology that is protected by methods claims of certain U.S. patents and other intellectual property rights owned by the Macrovision Corporation and other rights. Owner's use of this copyright protection technology must be authorized by the Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by the Macrovision Corporation.

How to handle the disc

Don't touch the shiny side of the disc (the side with the embedded information).
Don't stick a label or a glue-based note on either side of the disc. Don't use discs that have glue or a damaged gluey label-it might result in damage to your DVD player.
Don't put discs in the sunshine. Park your car in the shade.

Caution

Wipe softly with a wet cloth and then with a dry one.
Before playback, wipe the disc outward from the center with a clean cloth.
Do not use any type of solvent such as thinner, benzene, commercially-available cleaners or antistatic spray.
To avoid damaging your DVD player, don't use a scratched disc.

Troubleshooting

Symptom	Items to Check	Actions to be Taken
Button does not work.	Is the power turned on?	Check the car battery capacity.
No sound	Is the audio which is connected with the audio cable set to receive the DVD signal output?	Select the correct input mode for the audio receiver.
	Is audio cable is connected securely?	Connect the audio cable into the jacks securely.
	Is the monitor which is connected with the audio cable turned on?	Turn on the monitor connected with the audio cable.
	Is the digital audio output set in the correct position?	Set the Digital Audio Output to the correct position, and then turn on the DVD player again by pressing the POWER button.
No picture	Is the monitor set to receive the DVD signal output?	Select the proper video input mode in the monitor and check to see if the DVD playback screen is displayed on the monitor.
	Is the video cable connected correctly?	Connect the video cable correctly.
	Is the monitor powered on?	Turn the monitor power on.
No playback	Is the disc incompatible?	Insert the compatible disc. (Check disc type, color type and area code)
	Is the disc put upside down?	Insert a disc with the playback side down.
	Is the disc contaminated with dust?	Clean the disc.
	Is the menu displayed on the monitor?	Press the function selection button to close the menu screen
	Is the rating level correct?	Cancel the parental function or change the parental level.
Unable to receive TV broadcasting.	Is the antenna connected properly?	Check antenna connection.
Remote control does not work properly.	Is the remote control facing at the remote sensor?	Point the remote control to the remote sensor of the product.
	Is the distance too far?	Use the remote control within 5m.
	Is there any obstacle in the middle?	Remove the obstacle.
	Is the battery exhausted?	Replace with new batteries.

Check point

When a disc is brought from a cold environment to a hot one, there may be steam on the face of the disc, or water will appear on the pickup lens. It will be affected disc play.

1. Remove the disc from the DVD player.
2. Turn on the power and leave it on for an hour to vaporize the condensation.
3. You can operate the DVD player without any problems.

Specifications

Power	DC 12V
Power Consumption	22.5W
Screen Format	4 : 3
Resolution	2400 X 600 dots / 800(RGB) X 600 Pixel
Brightness	330 cd/ m ²
Color System	NTSC / PAL Auto Selection
A/V Input	2 EA
A/V Output	1 EA
IR Transmitter	Yes
Remote Control	Yes

Note : This equipment has been tested and has been found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in some case the user will be required to correct the interference at his own expense.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: To assure continued compliance, (example - use only shielded interface cables when connecting to computer or peripheral devices). Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

IMPORTANT Safety Instruction:

CAUTION

To reduce the risk of electric shock, do not remove the top cover (or the rear section).
No user serviceable parts inside, refer servicing to qualified personnel.

This symbol, wherever it appears, alerts you to the presence of uninsulated dangerous voltage inside the enclosure-voltage that may be sufficient to constitute a risk of shock.

This symbol, wherever it appears, alerts you to the important operating and maintenance instructions in the accompanying literature. Please read the manual.

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this equipment near water.
- 6) Do not use near any heat sources such as radiators, heat resistors, stove, or other equipment that produce heat.

CAUTION
**RISK OF EXPLOSION IF BATTERY IS REPLACED
BY AN INCORRECT TYPE.**
**DISPOSE OF USED BATTERIES ACCORDING
TO THE INSTRUCTIONS**
