Subject: Declaration of Non-Adjustability of RF Characteristics of the Cello 6 v2
datalogger FCC ID: XUVC6V2D.

This statement confirms that there is no user-adjustability of the RF characteristics of the Cello 6 v2. All frequencies, transmit power levels (etc) are factory preset and cannot be adjusted in the field. There is no 'tune-up' procedure.

Yours sincerely

Joseph Sawyer (Mr)
Design and Development Engineer
