Re: Modular FCC ID: XWX-WLM54AG23 and IC: 8701A-WLM54AG23

Please be advised that radio module WLM54AG23 utilizes both 2.4G and 5G frequency bands; however, the 5G is disabled in the product proprietary firmware and cannot be enabled by the end user.

In addition, the radio module has dual antenna ports: Main and Aux. The Aux port is also disabled in the product proprietary firmware and cannot be utilized by the end user.

Sincerely,

A handwritten signature in black ink, appearing to read "Guzvaldo Medina".
