

- Combination UHF/GNSS antenna kit
- Active GPS/GNSS Element
- Single Hole Fixing

The GPSK-TET-SEP antenna is a dual function, high performance TETRA antenna with an active GPS/GNSS element.

The GPSK-TET antenna covers frequencies from 380MHz to 430Mhz. With the ability to mount on a roof up to 6mm thick using only a single 14mm hole.

The twin functionality of the Panorama GPSK range makes the antennas a popular choice for police, buses, taxi's and other public service and utility vehicles.
