

Photographs of test set-up

1. Conducted RF measurements

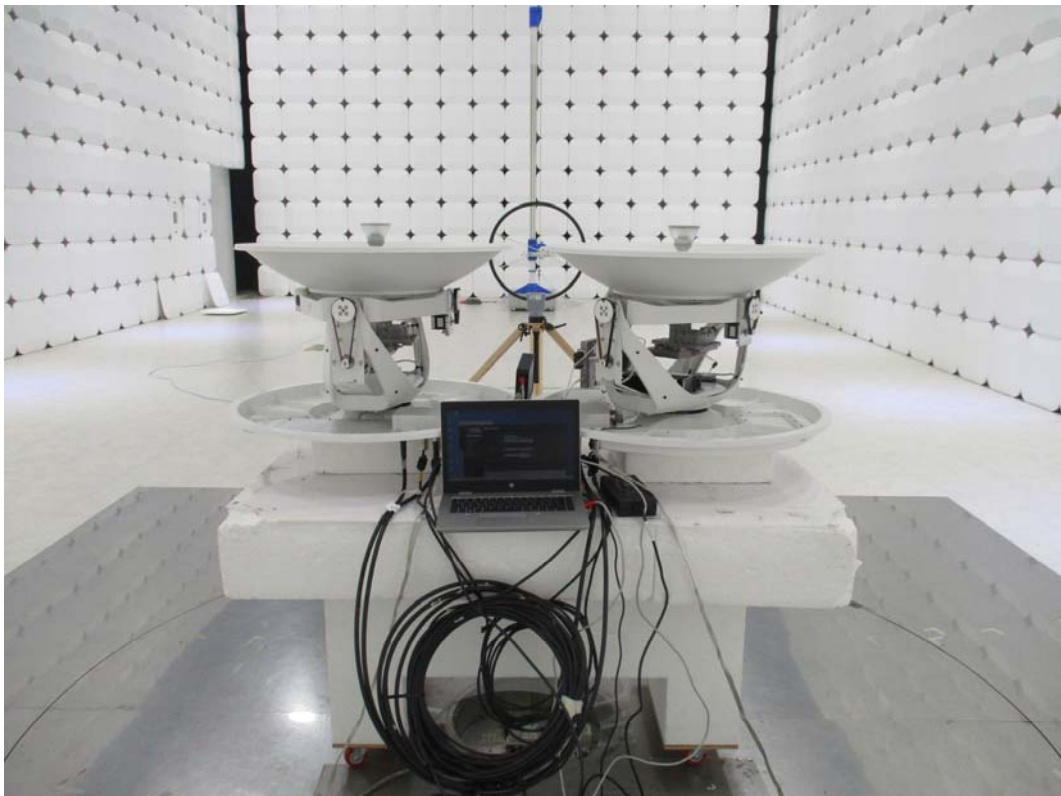

In the temperature chamber (for the transmitter frequency stability measurements)

2. Radiated emissions measurements

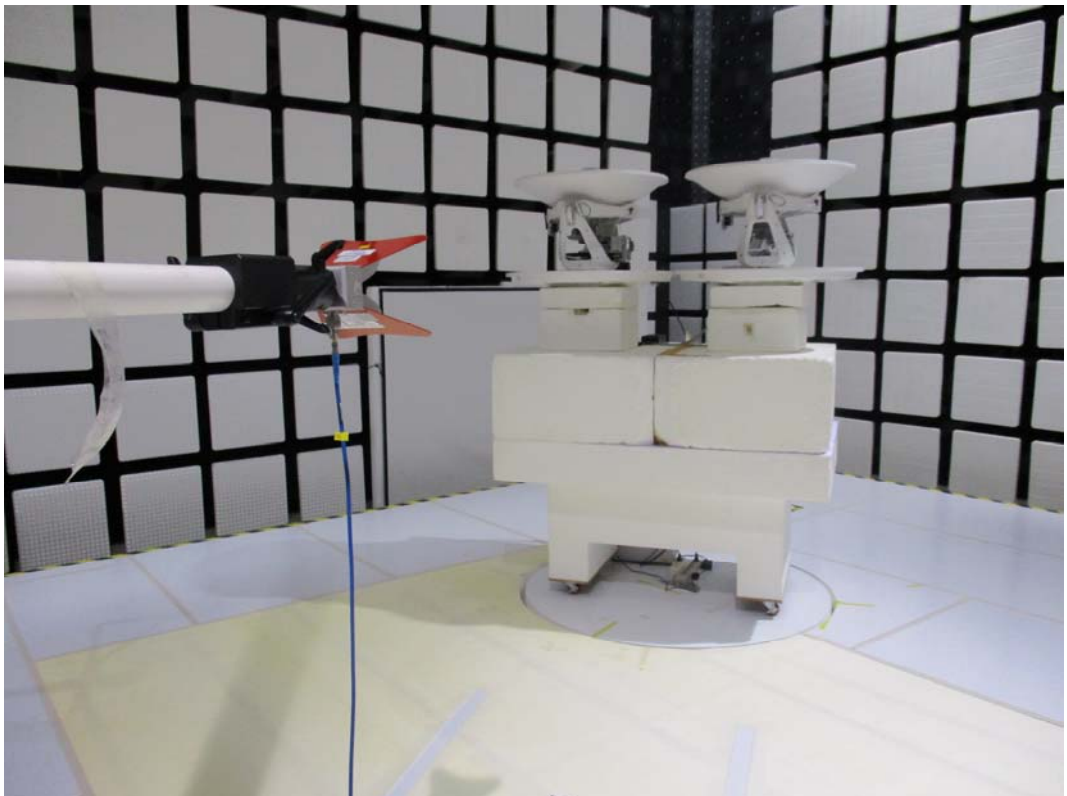

Radiated emissions measurements from 9 kHz to 30 MHz

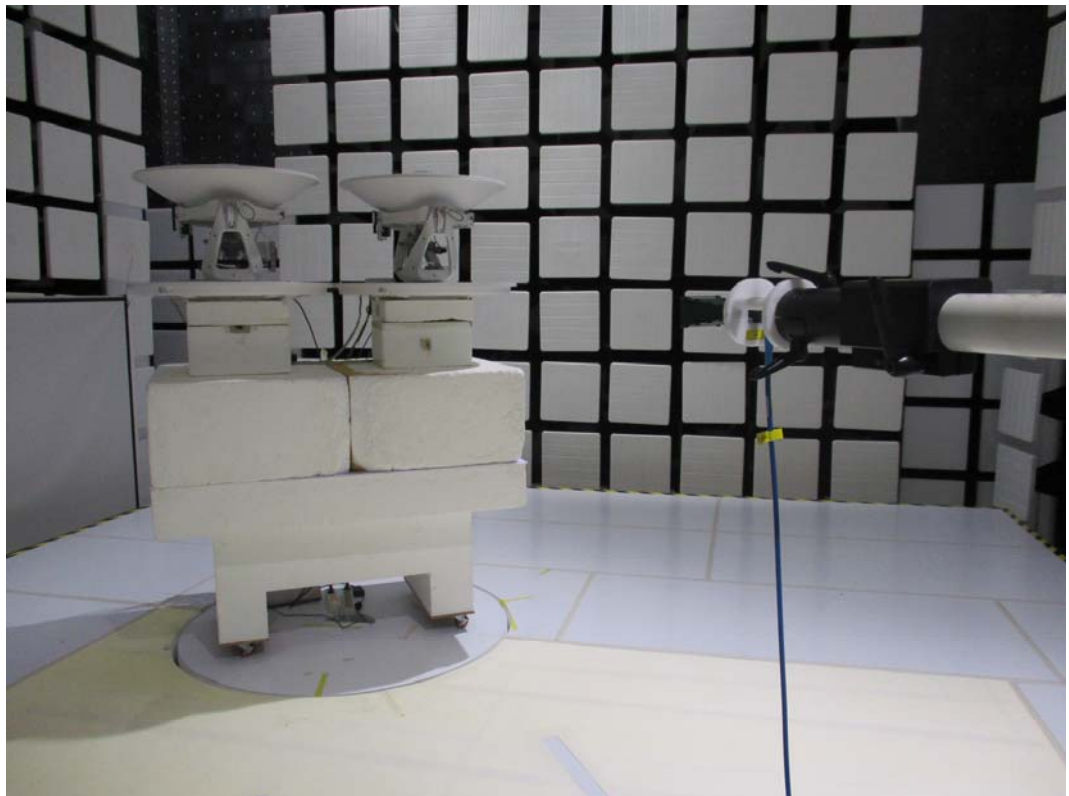

Radiated emissions measurements from 30 MHz to 1 GHz

Radiated emissions measurements 1 GHz to 18 GHz

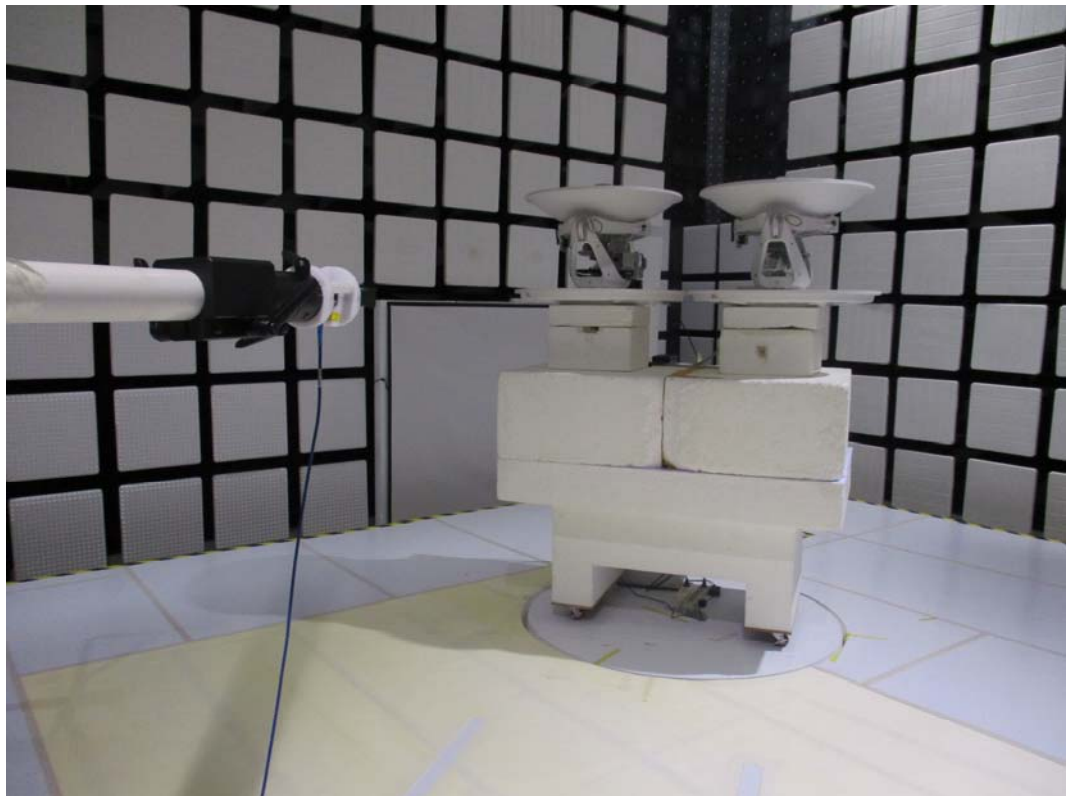

Radiated emissions measurements 18GHz to 26.5 GHz

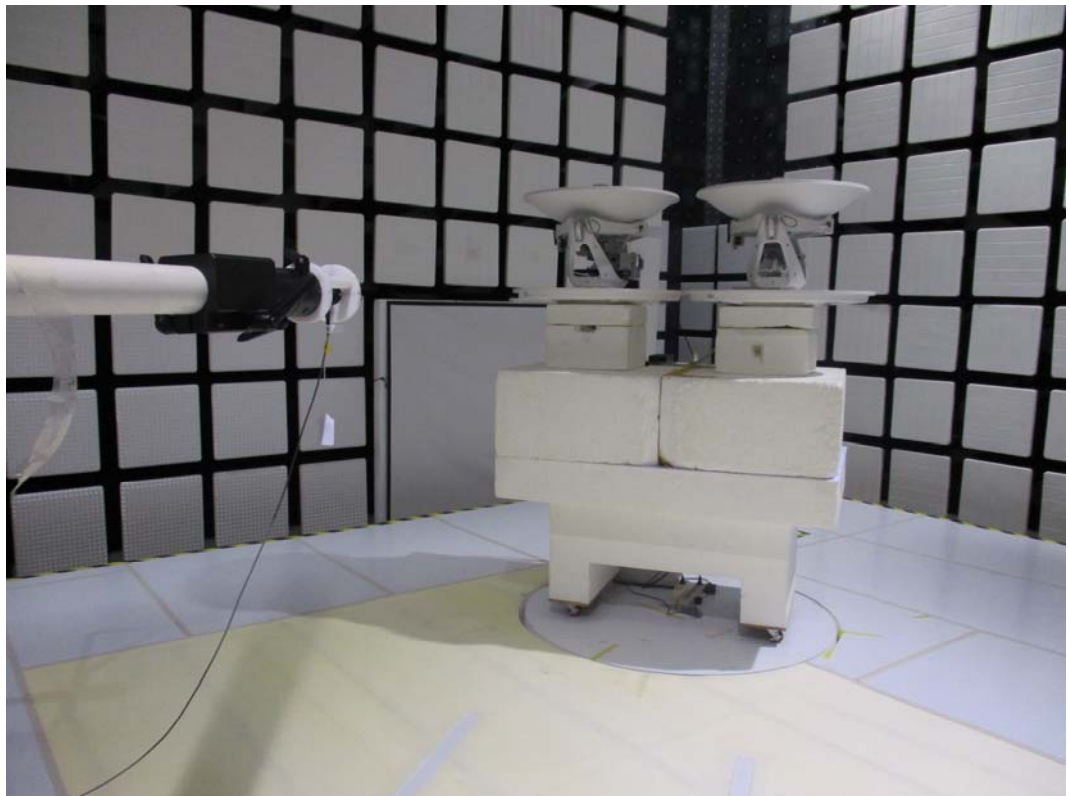

Radiated emissions measurements 26.5 GHz to 40 GHz

Radiated emissions measurements 40 GHz to 60 GHz

Radiated emissions measurements 60 GHz to 75 GHz
