1st April 2020

Ocean Signal hereby request assessment of a class II permissive change to FCC ID XYEEPIRB1.

The device covered by this ID is currently a manual release Emergency Position Indicating Radio Beacon (EPIRB) only.

A new model is to be introduced, the 'EPIRB1 Pro', which will be marketed complete with an Auto Release Housing, making this model fully compliant with IMO carriage requirements.

The following changes have been made and covered by the additional partial test reports.

1. New Auto Release Housing ARH1
2. Change to antenna mount to allow antenna to auto deploy on release.
3. Modifications to comply with the referenced RTCM standard, SC11000.3.

The applicable changes have been presented to Cospas Sarsat for inclusion on the Type Acceptance Certificate currently TAC322.

The USCG has been notified of the changes and a letter of acceptance requested in accordance with the requirements of CFR 47 part 80.1061(c)(1)

Signed on behalf of Ocean Signal Ltd.

David Sheekey
Approvals Manager.
