FCG Compliance Statement

I, the undersigned, hereby certify that I am the duly authorized representative of the FCG Business Unit, Operations in relation to the following two conditions (1) and (2) of the FCG Policy. Operations will not cause harm to the environment or the community, nor will it cause any interference to the environment or the community. Operations will not cause any interference to the environment or the community.

Changes or modifications that may express approval by the party responsible for compliance will be under the authority to comply with the FCG Policy.

This document has been tested and audited to comply with the limits of the FCG Policy. The FCG Policy is a part of the FCG Policy. The FCG Policy is designed to provide a reasonable protection against harmful interference in a restricted environment. The equipment generates, uses, and can radiate radio frequency energy and it is not installed and used in accordance with the instructions may cause harmful interference to radio communication. However, there is no guarantee that harmful interference will not occur in a particular situation.

The user is cautioned that harmful interference to radio or television reception, which can be determined by turning the equipment off and on, may be caused by the use of the equipment. The user is advised to use the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to a power outlet that is different from that to which the receiver is connected.
- Consult the dealer or a qualified technician for help.

BSE Compliance Statement
