Equipment Authorization Division  
Office of Engineering and Technology  
Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

Ref: FCC ID: Y2L0002

Dear Sirs:

Boly Media Communications (Asia) Co., Ltd. requests acceptance of the labeling proposal described below for mobile scouting camera bearing FCC identifier Y2L0002.

The subject mobile scouting camera are compact handheld model as shown in figure 1, authorized under 47CFR Part 22H&24E for GSM mobile services.

Figure 1.

Because the majority of the mobile scouting camera housing is composed of display, operating controls and indicators, there is limited space available to attach the required label carrying the FCC identifier. Attaching the label to the battery is not acceptable because the battery is a removable item. Boly Media Communications (Asia) Co., Ltd. proposes placing the label carrying the FCC identifier on the inside enclosure of the bottom cover as shown in figure 2.

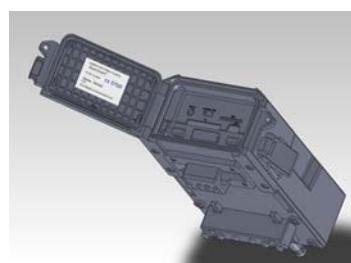

Figure 2.

---

The consumer packaging for these models includes the battery as a separate item, NOT installed on the radio. As such, the FCC identifier will be readily visible to the user before the battery is installed and whenever the battery is removed or replaced. In this location, the label will also be protected from physical abuse and remain readable for the anticipated life of the device.

The consumer packaging for these models is a "gift box" which does not allow the transceiver to be seen at time of purchase. In order to meet the requirements of 47CFR Part 2.925 (d), Boly Media Communications (Asia) Co., Ltd. will add the FCC identifier "Y2L00002" to the outside of the consumer "gift box" packaging.

Thank you for your attention to this matter.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "Xiaoping Hu".
