Technical Specification

- Wireless 2.4G signal transferring for audio and video
- 4-channel signal selection to get the best connection between the transmitter and the receiver
- Transmitter input interface: USB Mini-B port; Transmitter output interface: 30-pin dock connector
- Receiver input interface: DC Jack; Receiver output interface: USB-A port, Composite Jack for 480i video output
- Built-in 700mAh Li-battery on the transmitter for 5-hour playing

System Requirement

All iPod, iPhone, and iPad, except iPod First Generation.

Installation & Application

1. Using Wireless 2.4G AV Station

- I. Make sure that the transmitter is fully charged. It can be charged by connecting to any USB charging equipment per the USB-A to Mini-B cable. You can also connect the transmitter to the receiver with USB-A to Mini-B cable to charge the transmitter, as well, iPod, iPhone, and iPad, at the same time.
- II. Auto power on when iPod, iPhone, and iPad connected to the transmitter. The power LED will light on to indicate connection success. Plug & Play and Hot Swappable supported during the play time.

- III. Connect iPod, iPhone, and iPad to TV or speakers with the RCA cable. Yellow cable is for the video signal, red and white cables are for the audio signals.

- IV. Connect the adaptor to the DC jack on the receiver for power supply.
- V. Select the same channel from 4 options on the transmitter as on the receiver.
- VI. Play the video on your i-product and it will transfer to TV or speakers.

2. Power Indicator

There are 3 different power indicators to represent different status, please review the diagram below for details.

Important Safety Instruction

Warning! Make sure that all users who operate the USB Charging Adaptor read and follow this Instruction Guide. Failure to read and follow the safety information before using and installing may result in serious or fatal injury and / or property damage.

- The Adaptor suitable for use only with USB - Compatible and plug type compatible devices. Using the adaptor with the other electronic devices may result in serious or fatal injury and / or property damage.
