Report #: 2010226

Appendix C: FCC Modular Approval – DA 00-1407

Please refer to the following page.

Application for Limited Modular Approval of Y3K-PORT

Evolve Guest Controls (FCC grantee code Y3K) is applying for limited modular approval of their device with the FCC ID Y3K-PORT. This module will be limited to use with products produced by Evolve Guest Controls that also comply with the electrical standards and physical form factor of the USNAP standard.

Shielding: The module was tested to comply with FCC standards on its own to meet FCC shielding requirements.

I/O Buffering: The module was tested to comply with FCC standards on its own to meet I/O Requirements.

Power Supply: The power supply for this module is supplied by a USNAP compliant connector that will always be supplied at a regulated 3.3V as per the standard.

Antenna: The antenna for this module is a permanent PCB trace antenna

Testing: Testing for this module conducted in a stand-alone configuration

Label: The module will be labeled with its FCC ID in a manner that cannot be visible when it is installed. Because of this the FCC ID of the module is included as part of the FCC label of the enclosure it is inserted into.

Operating Requirements: There are no special operating requirements for this device.

Exposure Requirements: There are no special exposure requirements for this device.
