

HANDS-FREE BLUETOOTH® HAT

MA-0129

INSTRUCTION MANUAL

FEATURES:

1. Keep warm by answering your phone or listening to music while your phone is in your pocket.
2. The hat is washable. Remove the Speakers/Mic first.
3. Built-in Mic, allows you to use your hat as a handsfree device. You can make and receive calls via the Bluetooth® connection with your cell phone.
4. Built-in Li-ion rechargeable battery. Charge battery via the USB cable (Included).

TURNING THE HAT "ON"

- 1) Press the "▶||" for 3 seconds, and the hat will turn on. This is indicated by a slow flashing "BLUE" LED light.
- 2) Press the "▶||" for 3 seconds again and the hat will turn off.

WIRELESS BROADCASTING VIA THE HAT

1) PAIRING & CONNECTING

The Bluetooth® function should be turned to "ON" under the setting function of your mobile phone. When the hat is off, press "▶||" for 5 seconds. The LED lights on the hat should alternately flash red and blue indicating it is ready for pairing. The mobile phone will display the Bluetooth® pairing name "BT Hat". Select this pairing name to complete the connection. If you're pairing the hat for the first time, the mobile phone will request a password. Enter "0000". If the connection is successful the LED light on the hat will turn blue and flash slowly, indicating a successful pairing. You may now listen to music or make a call from your hat.

NOTE: If the connection was not successful turn the hat off and try step 1 again.

2) AUTOMATICALLY RE-PAIRING THE MULTIMEDIA BLUETOOTH® HAT

Your connection pairs automatically once the hat and mobile phone are turned on. Follow step 1 if the connection was cancelled on both hat and mobile phone.

LISTENING TO MUSIC

- Once the hat and mobile phone are paired successfully, press "Play" on your mobile phone to begin listening to music. Press "▶||" on the hat to pause and resume the current soundtrack.
- Press "+" once to forward to the next soundtrack or press and hold "+" to increase the volume.
- Press "-" once to select the previous soundtrack or press and hold "-" to decrease the volume.

INCOMING CALL

- 1) To answer an incoming call press "▶||" once and press it again to end a call.
- 2) To re-dial the last number called press "▶||" twice.

POWER SAVE MODE

The Bluetooth® hat will automatically default to Standby mode after 3 minutes of inactivity.

LOW POWER WARNING

The hat will provide an audible sound when the battery levels are low and charging is required.

USING THE USB CABLE

BATTERY CHARGING

Using the micro USB cable (Included), connect one end of the cable to the device (located right below the function pad) and connect the other end to a USB port, such as a computer or A/C adaptor. Once connected the LED light on the function pad will turn red. The LED will turn off once the Bluetooth® hat device is fully charged. (approx. 2 hours)

- Keep the Hat/Speakers/Mic dry while in use
- Do not disassemble or alter the Hat/Speakers/Mic
- Please do not throw or drop the Hat/Speakers/Mic

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body
