

Vibe Wireless Travel Mouse with concealed USB 2.3 receiver

Welcome

Thank you for selecting this product! Your wireless optical mouse uses a newly developed wireless technology 2.7 MHz that replaces the traditional wired mouse. You can use your wireless optical mouse freely and improve your efficiency.

Product features

1. Auto power save function extends your battery life for up to 6 months. Shake mouse to wake it from sleep mode.
2. USB plug and play compatibility. No installation required.
3. Perfect for home, office or travel.

Systems compatibility

1. USB 2.0 compatible and USB 1.1 backwards compatible.
2. PC: Windows 98SE/2000/ME/XP/Vista 7.0
3. Mac: OSX

Build-in mini receiver

Press the release button to have the receiver eject. Insert into your computer, and replace into the body of the mouse when not in use.

The Steps of Install Battery

1. Press the top case of the mouse and slide the battery cover off. Insert two AA batteries into correct poles.
2. Slide the battery cover back on until you hear a click to ensure the battery case is locked.

ID Setup

1. Move the mouse close to the receiver if it is not responding.
2. Press the bottom ID button of the mouse and hold for 10 seconds to allow mouse to reconnect to the receiver. When the light stays on, a successful connection is indicated.
3. Working distance is up to 1.5m.

Attention please

1. Do not move the mouse further than the suggested working distance.
2. Do not use the mouse on reflective surfaces to ensure proper function.
3. If not using the mouse for a long period of time, remove the batteries.
4. When the mouse is in power-save mode, it will not respond. Shake it to wake it from sleep mode.
5. To turn the mouse off, press and hold the ID button of the mouse on the bottom for 3 seconds. To turn the mouse back on, repeat.
6. If you move the mouse, and it is responding slowly, it may be time to change the batteries.

Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note**FCC ID: Y5FLX-W032**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer of an experienced radio/TV technician for help.
