

User's Manual

- Press the *On / Off* button to switch on the device:

- After initializing, LCD shows the **MIIKOO** logo, current time and environment information such as temperature and battery capacity:

- If the device isn't registered in the bank, the LCD display shows **No Cards** and automatically switches off after 15 seconds:

- If the device is registered in the bank, LCD shows **Swipe Finger** and user should swipe the first registered finger on the sensor:

- If user doesn't swipe finger for a long time, LCD shows **Time Out** and switches off automatically:

- For different swiping qualities the LCD shows different information to help user to swipe

correctly:

- **Too Short:** Sensor could only get a very short fingerprint image

- **Swipe Again:** Quality of the fingerprint acquired by the sensor is too bad is not of an acceptable quality.

- **No Match:** Either the fingerprint quality is not good or the finger swiped is not the first registered finger

- If the device user swipes wrong fingerprints up to 20 times, the device will be locked.

- If the fingerprint matches, the *LCD* shows the alias (e.g. CC1234) of registered bank card and the corresponding dynamic PIN (e.g. 123456):

- If there are multiple cards registered in the device, user can choose different cards by clicking or swiping on the sensor:

- After 40 seconds, device will switch off automatically:

4. Supports Microsoft Windows XP, Windows7, Mac OS and Linux OS
5. Supports IEx, Firefox, Chrome JRE:JRE 6.13 and above.
6. Compliance with FCC

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
