

FCC ID: Y7J5094B01-D

Technical Description:

The Equipment Under test (EUT) is a 2.4GHz Transceiver for a wireless dongle which is operating at 2415 to 2470MHz with 1MHz channel spacing. The EUT is energized by a USB port. When the EUT is inserted to the PC, it will pair the corresponding wireless calculator/ numeric keypad for wireless data transfer.

The functions of main ICs are mentioned as below;

- 1) U1 acts as 2.4GHz RF chip.
- 2) U2 acts as USB Controller.

Antenna Used:

Patch antenna has been used.
