Bluetooth Function Introduction

- Before connecting with Bluetooth, please turn on the Bluetooth device that needs to be connected, and turn off other devices that do not need to be connected to avoid interferences;
- In some cases some products may not be able to pair with this CD Player due to Bluetooth compatibility difference, please use the Audio Cable in the product accessories to connect. When a car stereo is not connecting, you can choose to use the FM transmitter to connect;
- When connecting a Bluetooth device, please unplug the headset, Bluetooth and headset cannot output audio at the same time;
- FM radio and Bluetooth cannot be used at the same time.

1. Bluetooth speaker/headset Connection:

- 1) When CD Player is on, hold **BT** to turn on Bluetooth;
- 2) When  is flickering, the device is ready to connect;
- 3) Turn on the Bluetooth speaker/headset to enter pairing mode;
- 4) Once connected,  will stop flickering, The connection process may take 20s~60s.

2. Car Bluetooth connection:

- 1) When CD Player is on, hold **BT** to turn on Bluetooth;

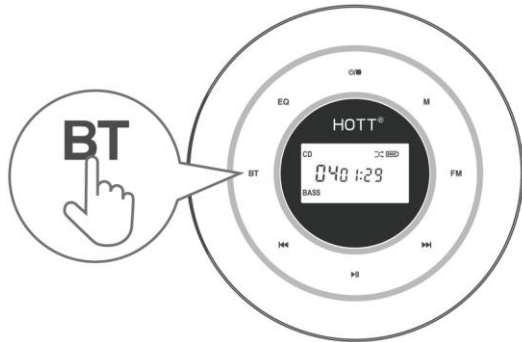

2) When  is flickering, the device is ready to connect;

3) Turn on car Bluetooth, find the device "HOTT-CD" and match the connection automatically, Some car Bluetooth requires a PN code(which is initially 000000 and can be changed later);

4) Once connected,  will stop flickering.

3.Exit Bluetooth mode :

➤ Hold **BT** until the icon  disappear.

FM transmitter mode introduction

 The FM mode is only suitable for cars with FM function;

 CD Player supports 5 fixed frequency points : F87:5、F88:1、F89:1、F90:5、F95:5;

 FM and Bluetooth cannot be used at the same time.

1. Car FM Connection :

1) When CD Player is on, hold **FM** to turn on FM connection;

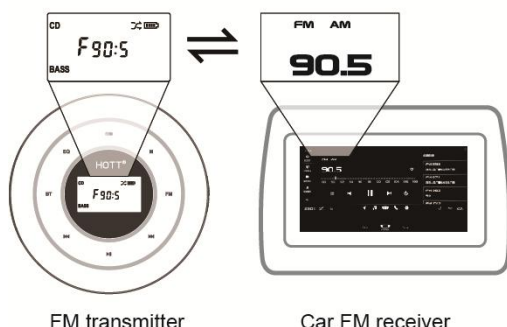

2) Hold  to switch frequency point : F87:5、F88:1、F89:1、F90:5、F95:5;

3) Adjust the frequency of car tuner to the same frequency of the CD Player for connection;

For example : adjust the frequency of both car equipment and CD Player to F90:5MHz and play music.

4) Press  to Pause/Play, press  to replay the current track, press  twice to find the previous

Tune the CD player and car stereo to the same frequency, for the car stereo to receive the input from the CD player

FM transmitter

Car FM receiver

track, Press **▶|** to find the next track. (Only supports track switching or pause and play on the CD Player itself, not on receiving device.)

2.Exit FM mode :

➤ When FM mode is on, hold **FM** to end FM connection mode.

- Please read carefully and follow the notes for optimal use of the CD Player.**
- ※ Do not put heavy objects on top of the CD Player and protect it from impact.
 - ※ Do not place CD Player close to strong magnetic fields or electric fields.
 - ※ Do not expose battery to flame or extreme heat.
 - ※ Do not play at high volumes to protect hearing.
 - ※ Do not expose the CD Player to excessive dust or sand, moisture, rain, or mechanical shock.
 - ※ Do not use ethyl alcohol or benzene solvent to clean, instead, use slightly damp fabric.
 - ※ Do not use headphones or car player when driving, cycling, or using any motorized vehicle.
 - ※ Do not take apart, attempt repair or modify the equipment yourself. HOTT will not be responsible for damages resulting from these behaviors.
 - ※ Do not improperly discard the package, battery and the electronic equipment.

| | | |
|---|---------------------------------------|---|
|  | Warning |  |
| | Avoid using headphones at high volume | |
| Hearing experts advise against continuous, long and extended play | | |

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC' s RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
