OPERATING THE SPEAKER

Turn ON / OFF the Speaker

Hold down the  button until you hear a “Beep” sound indicating that it is turned on. Hold down the  again until you hear a “Beep” sound indicating that it is turned off.

Bluetooth Connection

1. Turn on the Bluetooth speaker. The blue indicator light will start to flash rapidly.
2. Enable Bluetooth on your mobile device.
3. Search for Device name "HOTT" and connect to it.
4. When connected a "Beep" sound will play and the LED indicator light will be on steadily to indicate that a Bluetooth device is connected. You are now ready to stream your favourite music to the speaker and receive phone calls.

Note: After your device is paired with the speaker the first time it will automatically connect with it when the speaker is turned on the next time. Please note that Bluetooth must be enabled on your mobile device and within range to automatically connect to the speaker.

Music Playback

When connected to the Bluetooth speaker, you are able to play/pause music, skip track and adjust volume.

-To Play/Pause music click on the  button on the speaker. When no music is playing the LED indicator light will be on steadily. When the speaker is playing music the LED indicator light will flash slowly.

-To skip track click on the  or  to skip to the previous or next track

-To adjust the volume hold down the  or  button to adjust the volume. When volume is at max a "Beep" sound will be played.

Using the Speaker as Hands-free Bluetooth Speaker Phone

When your mobile device is paired with the speaker and if there is an incoming or outgoing call, the speaker will shift from music mode to call mode automatically. In case of an incoming call, press on the  button to pick up the call. After completing the call, press this button again to hang up. The music will automatically resume after the call has ended.

Charging

The speaker has a built-in rechargeable battery. Connect the provided USB cable to a computer or into a DC 5V power adaptor to charge. When the speaker is charging the LED indicator light will be red. When the speaker is fully charged, the red LED will turn off. Unplug the Speaker from the power device once the speaker is fully charged.

Note: The charging time is approx. 3 hours. The battery playing time varies depending on volume.

Shower & suction functions

This unit is IPX4 certified, which means you can enjoy music & phone calls in wet areas. The speaker's suction cup can stick to any smooth surface.

Note: Please do NOT submerge the unit into water, as this will ruin the speaker.

SPECIFICATIONS

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
