

# ACT Patient Guide

This user guide includes information and instructions about the ACT (Continuous ECG Monitor and Arrhythmia Detector, and monitor with software application) and will help familiarize you using the ACT system, so please take a moment to read it carefully before you begin testing.

**Note:** *This manual is for ACT Monitor Application version 5.4, ACT 1L Sensor version 0.1G and ACT Sensor 3L version 1.0.4*

## IMPORTANT

**First time use** – The patient must call the service provider to receive instructions on how to proceed for the first time use.

The first time the ACT system is activated and is attached to the patient there will be displayed screens not seen in regular use. These screens are calibration procedures the ACT system needs to perform to adjust its operation to the patient. Please read the Caution on page 36, for more details.

## CAUTION:

Place used batteries in the kit that you have received from your service provider and make sure they will be returned to your service provider.

If you have any questions regarding the ACT please refer to your representative.

## IMPORTANT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**NOTE: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.**
