

Attention:
Application Examiner

Re: Request for confidentiality

Applicant: Gigasense AB

FCC ID: YBQ300295-96

To whom it may concern,

Permanent Confidentiality

Request is hereby submitted by Gigasense AB to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- Detailed Block diagrams
- Detailed Operational/Functional Description
- Parts list
- Internal photos (See rationale below)
- User manual (See rationale below)

Rationale for request for confidentiality:

Gigasense AB has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us.

Gigasense AB hereby also request permanent confidentiality for Internal photos and User Manual due to the reason that these devices are professional installed by special trained personnel. The User Manual will only be available for the special trained personnel and the devices will be mounted without user access (mounted on track bound cranes or similar machinery).

If you have questions or need further information, please contact the undersigned.

Sincerely,

Mr Christer Oliveby

Engineer

Gigasense AB
