

## Operation Description

The power supply of CA001 is by DC 12V form adapter and it supply the power to ATJ2115C, ATJ2115C is the FM MCU module, It is connected with KEY part and LCD Display part, it send the FM signal vie QN8027 to Antenna and transmitting.

The Crystal is 24 MHz; the antenna is internal and its transmitter frequency range is 88 MHz-108MHz.
