Dear Charvey,

Good day

We just uploaded the Confidentiality Request letter for both long-term and short-term request via website, please kindly check.  
 Refer to the report, we are trying our outmost to update it, please kindly review the other parts in advance as the time is so precious for this project^\_^.

Thanks so much for your great support to NEUTRON and your kind understanding of our situation.

Have a nice day @\_#

Best regards,

Cathy

Dear Steve, Country and Cathy,

You are listed as the Technical Contact for the above referenced TCB application. The following item(s) need(s) to be resolved before the review can be continued:

1. The Confidentiality Request letter lists the Schematic Diagram, Block Diagram and Theory of operation as exhibits to hold as permanent

confidential on the FCC web site. There is no list of exhibits being indicated as Short Term Confidential, even though the exhibits uploaded for this application show External Photos (labeled incorrectly but will be corrected), Internal Photos (labeled incorrectly but will be corrected) Test Setup Photos, and Users Manual in a folder labeled as Short Term Confidential. If you wish for the exhibits in the Short Term Confidential folder to be held as Short Term Confidential, please update the Confidentiality Request Letter to also list the exhibits for which Short Term Confidentiality is being requested.

2. The Antenna Conducted Spurious emission test section of the DTS test report shows plots approximately 100MHz around the fundamental emission but does not show the entire required frequency spectrum. Please include the full spectrum of conducted spurious emissions plots in the test report.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender. Revised documentation should not be emailed, but instead should be submitted through "Add Attachment" function at the UL-CCS website. Please have your Assessment Number and FCC ID/IC Certification number handy. You may use the following link: <https://cert.ccsemc.com/filing/>

Best regards,

Chris Harvey
