

## Correspondence by Project

### Project Number:

1982940514

Correspondence Number	Memo
YGA002-1	<p><b>1) The schematics provided are not correct. Specifically, the Internal Photos show some sections of the device that are unpopulated, however they are shown populated on the schematics. Please provide corrected schematics. See uploaded exhibits; Schematics (133-0324_REV_1C); the block diagram has been modified to match the correct PCB PN. The internal photos show the previous PCB silkscreen; the old PN and new PN PCB's are electrically and physically identical the only difference is the new PN was created to signify that the GPS and WIFI transmitters are no longer being populated.</b></p> <p><b>2) The files for the User Manual and Internal Photos are too large. Please provide files that are less than 6 MB in size. See uploaded exhibits &lt;6MB internal photos, and manual.</b></p>
