The Crown Quick Pick Rapid system consist of the HD4100 "Wearable Remote" and the HD4010 "Truck Charger". These units by design only communicate with each other and have no usable features with any other product. They both are identified as FCC ID: YGP4000-01 since they are a system and use the same radio. These units by design only communicate with each other and have no usable features with any other product.
