RE: Confidentiality Request For NXOFM2, FCC ID YH9NXOFM2

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the following sections required to be submitted with this application be permanently withheld from public review.

**Block diagram**

**Schematics**

**Operational description**

These documents contain detailed design information for the product, which HLI Solutions, Inc considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, HLI Solutions, Inc feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

Ryan Belanger
