Subject: Antenna Configuration Declaration
FCC ID: YHIMD88SFA

Dear Sir or Madam,

We, NEXCOM international Co.,LTD, the responsible party for the BLE PCIe module with FCC ID: YHIMD88SFA, hereby declare that:

Although the module includes a built-in PCB antenna, it **will not be used** in the final product configuration. The BLE module will operate **exclusively with an external antenna** connected via a standard RF connector. The internal PCB antenna will be completely disabled and will not be selectable or accessible by hardware or software in any way. The external antenna to be used is specified as follows:

- Antenna Type: OMNI antenna
- Manufacturer: ARISTOTLE
- Model Number: RFA-25-T42-U-M70

This configuration ensures that only the external antenna type(s) listed in the FCC application will be used for transmission. Any use of the internal antenna is strictly prohibited in all production units.

This declaration is provided to support our application for FCC certification, and we understand that using any antenna not listed in the application requires prior authorization from the FCC.

Date: July 3, 2025
