P.O. Box 370  
Newberry, Florida 32669

Gentlemen:

The attached documentation is provided in support of a formal submission to your organization for Approval of an intentional unlicensed transmitter. On behalf of our client, Aegis Labs has included an application for a Grant of Equipment Authorization pursuant to Subpart C of part 15 of FCC Rules (47 CFR) regarding intentional radiators. The data within the test report demonstrates the equipment was tested in a manner described under Part 2 and 15 of the Code of Federal Regulations.

This is a Portable approval of the ProScope MOBILE (MN: A1, FCC ID: YIJ70D57E), which is a WiFi adapter (802.11b). The ProScope MOBILE was tested as a stand alone device with an internal TDK Antenna continuously transmitting.

If there are any additional questions or if further information is needed, please contact us at your earliest convenience.

Sincerely,

A handwritten signature in blue ink that reads "Johnny Candelas".

Johnny Candelas
