

#### The Zigbee Limited Modular Device Label

The circuit for the transmitter part is smaller than a palm, so per KDB # 784748 D01: "If the device is unquestionably too small for the FCC ID to be readable (smaller than 4-6 points), the FCC ID may be placed in the user manual."

The Module FCC ID is placed on Page #16 of Device Controller Installation Guide EHWVN0114-01 and Device Controller Data Sheet (Rev B) EMKUT0115-02.

The outside of the device into which the module is installed is displayed a label referring to the enclosed module. This exterior label can use wording as the following: "Contains Zigbee FCC ID: YJ4CMGYZCDCZ31""
