

Appendix D. Photographs of the Test Set-Up

Photo 1: Right Cheek	Photo 2: Right Tilted
 A photograph showing a white, dome-shaped object, likely a face mask, mounted on a black mechanical test fixture. The fixture has a red cylindrical component and a white tube attached to it. The object is positioned vertically.	 A photograph of the same setup as Photo 1, but the white dome-shaped object is tilted at approximately a 45-degree angle to the left, revealing more of its side profile.
Photo 3: Left Cheek	Photo 4: Left Tilted
 A photograph showing the same white, dome-shaped object mounted on the black mechanical test fixture. In this view, a red cylindrical component is more prominent on the left side of the fixture.	 A photograph of the setup from Photo 3, with the white dome-shaped object tilted at approximately a 45-degree angle to the right, showing its side profile.
Photo 5: Front Face_15mm	Photo 6: Rear Face_15mm
 A photograph showing the white, dome-shaped object mounted on the black mechanical test fixture from a front-facing perspective. The object is positioned horizontally.	 A photograph showing the white, dome-shaped object mounted on the black mechanical test fixture from a rear-facing perspective. The object is positioned horizontally.
