 Subject: IR Robot Co., Ltd., FCC ID: YKLIRMFL02A, Assessment NO.: AN10T0641, Notice#1

Dear Feel Jeong and Grace Loh,

You are listed as the Technical Contact for the above referenced TCB application. The following items need to be resolved before the review can be continued:

7/23/2010

1. The Transmitter circuitry does not seem to be included in the schematics, which according to the Internal Photos and the Block Diagram are a module located on the User Board. Please provide the RF Schematics for the Transmitter Module (MG2455 ZIGBEE MODULE). Please provide the Schematics of the Transmitter RF Board.

-> Attach to the RF Schematics of the module.

2. Labeling and Manual Information: The FCC ID Label exhibit shows the label location at on game controller, which seems to be a strange location (typically the labels are located near the name-plate, power inlet. Please confirm the Label Location for this device. Additionally, FCC 15.19 requires devices to be labeled with the FCC Compliance Statement unless the device is too small. This large device should be labeled with the FCC Compliance Statement of FCC 15.19. Additionally, since this device is also a Digital Device, the FCC Manual statements of FCC 15.105 should also be located in the manual.

-> Updated FCC ID Label and user manual

3. You have requested the Parts List and Block Diagram to be held confidential, but these exhibits are also contained in the Users Manual which can not be held confidential. Please provide a Users Manual exhibit that does not contain the confidential information.

-> Updated user manual

4. Please provide the Antenna Specification exhibit.

-> Attach to the antenna spec

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
