### 3. Product Appearance

Thank you for using the product of Guangzhou ESquare.

The product appearance you purchase may be as shown:

Guangzhou ESquare reserves the right to change products any time. If you have any questions on the appearance of the product, please contact directly with Guangzhou ESquare technical support department.

### 4. Product Specifications

There will not have any further notice when products have been modified. Please contact Guangzhou ESquare directly for the details of product.

Parameter		Range
Basic parameters	Rated voltage	3.6V
	Cell Utility Time	≥ 3 Years
	Operating Temperature	-20° C~+55° C
	Waterproof rating	Conform to IPx7 Standard, Soaking for 30 minutes without leakage

RF parameters	Operating frequency	2400~2483.5MHz SimpleID Protocol, Channels 0
	Peak value transmitting power	1mW
	Air Interface Protocol	SimpleID Protocol, Transmission of low immunity
Tag parameters	Basic Function	Vandal resistant; Zone location; Low cell or voltage warning

## 5. Use of Product

### 5.1. Working status

The tag is at working status when being produced.

The tag transmits once for every other 1s, and no more than 200us each time.
