Function Index Sign

FM	FM Frequency range	87.5~108.0MHZ
	Noise limit sensitivity	20dBu
	S/N Ratio	50dBu
	Antenna resistance	75Ω
AM	MW Frequency range	530~1730KHZ
	S/N 30db	35dBu
	S/N Ratio	40dBu
	Antenna resistance	75Ω
AUDIO	S/N Ratio	80dBu
	Max output power	4Ω 60W*4CH
VIDEO	Video output scope	1+/-0.2V
	Video Horizontal Resolaton	≥600

Warning

1. To ensure the accurate of touch function, please touch the center point of relative function.
2. There are build in anti-jamming system in touch screen, To prevent the wrong position touch, please keep to touch this function for 0.5 second, then the product will get respond for your instruction.
3. Please do not use the object, which is bigger than the function icon to touch the screen. Otherwise the touch function will failure or give the wrong operation to other function.
4. To ensure the panel safety, please don't press or use the sharp object to touch the panel.
5. Don't play the severity scratch disc, otherwise will damage the DVD play capability.
6. Be sure to distinguish the anode and the cathode when connecting the power. If connect wrong, the fuse in filter box will melt immediately to protect unit. Then please replace the same parameter fuse.
7. DC 12V should be best to connect with the power adapter to prevent from the over-voltage drop the may influence the normal work of the monitor.
8. Keep this machine away from too hot, or under effect of moisture, dust or oil smoke, avoid this machine from dropping or impacting, never extrude or chafe this machine with sharp objects.
9. Dangerous high voltages are present inside the enclosure. Do not open the cabinet, non-professionals can not disassemble unit.
10. Installation should be very tight and secure. Preventing the fallen unit hurt people when moving on or a sudden brake.

Disc Notes.

Specifications

	DVDs	12cm
	Vedio CDs	12cm
	Audio CDS	12cm
	MP3 CDs	12cm
	JPG CDs	12cm

Disc type	DVD Vedio VedioCD	CD-DA MP3 JPEG
Video output	Vedio output Video output: 1.0Vpp/75ohm	
LCD panel	7" color TFT Pixels: 480xR. G. BX234	
Power	DC: 12V/10A	
Working temperature	5°C~45°C	

Simple Trouble-Shooting Guide

If your product fails, please follow the way of exclusion, if it is still unresolved, please contact the professional or supplier.

Symptom	Probable Cause	Solution
Black Screen	1.No12 voltage 2.Brightness or contrast ratio is too small	1. check the power is on or connect rightly 2. check the A/V Cable is loose or not 3. Increase the brightness and contrast ratio
NO picture	1.No sources output 2.The video concentric plug becomes loose	1.Check the output of VCD or DVD 2.Replace with the A/V cable 3.Tighten the Video input cable
color picture	1 Video sources have no output 2.Color ratio should be re-adjust	1.check the video sources 2.Enter into the Menu to re-adjust
With a little regular light spots and color spots on the screen or black horizontal line in the picture	It is normal symptom in the active matrix display technology.	it is normal symptom in view range with a little regular light spots on display screen.
Unclear picture	1.Poor quality of the video sources 2.Bright & Contrast	1.Replace with the high quality videodisc 2.Reset Bright & contrast.
The outer cover of the monitor has been deformed	1.External temperature is too high. 2.The power has not been switched off for a long time.	1.The surround temperature should not exceed to 0-60 degrees. 2.Turn off the power after using the unit.

ALARM

For your safety, driver are advised not to watch the display when driving. It's prohibited in law of some countries when driving and operating to watch displayer.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body
