EUT UNCOVER VIEW

A black plastic enclosure, likely for a portable electronic device, is shown next to a yellow battery. The enclosure has a transparent window revealing internal components. The battery is labeled with technical specifications: BR7250, PI 5002030, 3.7V, 250mAh, 2091321, 0.35Ah, LITH ION. A white connector is attached to the battery. A ruler is visible on the left side of the image, indicating the size of the components.

A photograph of a green printed circuit board (PCB) of a mobile phone, showing various components like the battery, camera, and connectors. A ruler is placed next to it for scale. The board is populated with numerous integrated circuits, capacitors, and other electronic components. A large silver battery is visible on the left side. A camera lens is located on the right side. A SIM card slot is visible on the right side. A USB connector is visible on the right side. A ruler is placed horizontally at the top of the image, showing measurements in millimeters. The background is a blue textured surface.
