

This product revision was modified to include the following changes listed below. This was to ensure product reliability and robustness.

Model Name: eM-410R4

Current hardware revision: 3.1

Product changes:

- Changed the plastic enclosure.
- Changed footprint and location for J6 & J7 (requested by manufacturing)
- Changed SW2 to J12 (requested by manufacturing)
- Adjusted the LEDs brightness. Changes include:
  - Q3, from 693115 to 693048
  - R64 & R66, from 694330 to 694387
  - R65 & R67, from 694314 to 694386
- Added required labeling for FCC and IC.
- Modified the analog output circuit to add more protection against ESD.
