

1985 Hendersonville Road - Asheville, NC 28803 - 828-684-8441

Ref: FCC ID: YTI-SH003-102010

Dear Sirs:

SimplyHome LLC requests acceptance of the labeling proposal described below for the 802.15.4 Motion Detector bearing FCC identifier YTI-SH003-102010.

The Motion Detector pictured below is authorized under FCC part 15.249 TX and Part 15.109 Digital testing.

Because of the compact size of the Motion Detector, there is extremely limited space available to attach the required label carrying the FCC identifier. Attaching the label to the back housing is not acceptable because of a raised company logo. For this reason, SimplyHome proposes placing the label carrying the FCC identifier inside the front cover as shown in the image below.

The consumer packaging for the Motion Detector includes the battery as a separate item. The front cover of the device has to be removed to install the battery and physically mount the unit. As such, the FCC identifier will be readily visible to the user during the installation process. In this location, the user will not be tempted to remove the FCC identifier label for aesthetic reasons. This location will provide protection from removal or physical abuse and remain readable for the anticipated life of the device.

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Whitworth".

Chris Whitworth  
Director of Engineering
