Operation Manual

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Quick Start

You will need:

Small Phillips Screwdriver and 4 AA batteries.

1. Install two AA Batteries in Transmitter. *(display will show that System is Ready)*
2. Connect Wire Harness to Receiver. *(do not force any connectors)*
3. Connect Servo to Wire Harness. *(match up wire colors)*
4. Install two AA batteries into Receiver Battery Pack. *(Small phillips screwdriver needed)*
5. Hold [9] key for one second *(cursor starts to blink)*. Release [9] key and press [7] key.
6. ***(note)*** *The next sequence must be completed within 10 seconds.*
Plug Receiver Battery Pack into Wire Harness and Press the [*] key on Transmitter.

*Write down the address shown in the Transmitter Display. (This address will be needed for future communication with **this** Receiver). Transmitter and Receiver are now linked & ready to use.*

7. Press [#] to operate the servo.
