**Subject: Class 2 Permissive Change (C2PC) Request**

**FCC ID: YVELB1DX**

To whom it may concern

In accordance with KDB 178919 D01 and FCC rule part §2.1043: Changes in Certified Equipment, Light Blue Optics Ltd. hereby requests a class 2 permissive change to FCC ID: YVELB1DX as detailed below:

The antenna to be used (Walsin Technology Corporation part number RFDPA250550IMAB301) does not comply with the design requirements of the module FCC ID: YVELB1DX in that it is a dipole antenna with a gain of approximately 2dBi rather than a PCB-based monopole antenna with a peak gain of 1.4dBi. Connection between the Antenna and the Module must comply with "Light Blue Optics Module Type 1DX Antenna Design Requirements" of November 2016.

Note that the LB1DX Module will always be installed inside the Light Blue Optics "Kaptivo" product, a whiteboard data acquisition and transmission system.

Yours faithfully,

Nic Lawrence  
C.E.O.
