

Welcome to tyPad™

Thank you for purchasing the all new tyPad, your must have companion for iPad. tyPad is specially designed to enhance your iPad experience, while providing valuable protection. tyPad is sleek, lightweight, and easy-to-use. It will turn your iPad into the ultimate portable workstation.

Here are some basic instructions to get you through the set-up and synchronization process. After your initial set-up is complete, your iPad will automatically recognize your keyboard for continued use.

Getting Started:

Securing your iPad into the tyPad case

1. Open your tyPad case.
2. Unfold the tyPad case and position it so that the keyboard is facing you.
3. Carefully insert your iPad into the case via the opening at the top of the tyPad. The iPad should be inserted so that the volume buttons on the device are facing upwards. The Home key on the iPad will fit into the groove at the right hand side of the tyPad.

Groove for Home key

②

Getting Started (Cont'd):

4. Secure your iPad in place by fitting the protective flap of fabric over it. Fold the flap into the back part of the case so that it hugs the top and back of your iPad. When inserted properly, the iPad will fit snugly in the case.

5. Your iPad is now safely nestled in the case and ready to use.

Product Features:

1. **Bluetooth** wireless technology enabled 2.0 interface keyboard.

2. Re-chargeable lithium battery for keyboard.

3. Soft touch keys.

4. Faux leather protective case.

5. Home Screen key.

Keyboard Specifications:

1. **Bluetooth** V2.0 wireless technology

2. Working Distance: Approx. 33 feet

3. Transmitting Power: Class 2

4. Operating Voltage: 3.0-5.0V

5. Standby Time: 90 days

6. Continual Use Time: 55 hours

7. Charging Time: 3-3.5 hours

8. Li-ion Battery Capacity: 470 mAh

9. Operating Temperature: 32 to 122°F

③

Bluetooth® Keyboard

Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 1: Make sure your iPad is turned on.

Step 2: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 3: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 4: Click the Settings button on your iPad. Select General, then **Bluetooth**.

Step 5: The iPad will search for your keyboard. Select "Bluetooth Wireless Keyboard" on the iPad screen.

Step 6: A message prompt will appear on your iPad screen. The prompt will provide you with a unique passkey to authorize the pairing of your iPad and **Bluetooth** wireless technology enabled keyboard. Enter the passkey exactly as it appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 7: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 8: Make sure your iPad is turned on.

Step 9: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 10: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 11: Click the Settings button on your iPad. Select General, then **Bluetooth**.

Step 12: Select "Bluetooth Wireless Keyboard".

Step 13: A message prompt will appear on your iPad screen. The prompt will provide you with a unique passkey to authorize the pairing of your iPad and **Bluetooth** wireless technology enabled keyboard. Enter the passkey exactly as it appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 14: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 15: Make sure your iPad is turned on.

Step 16: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 17: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 18: Click the Settings button on your iPad. Select General, then **Bluetooth**.

Step 19: Select "Bluetooth Wireless Keyboard".

Step 20: A message prompt will appear on your iPad screen. The prompt will provide you with a unique passkey to authorize the pairing of your iPad and **Bluetooth** wireless technology enabled keyboard. Enter the passkey exactly as it appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 21: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 22: Make sure your iPad is turned on.

Step 23: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 24: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 25: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 26: Make sure your iPad is turned on.

Step 27: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 28: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 29: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 30: Make sure your iPad is turned on.

Step 31: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 32: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 33: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 34: Make sure your iPad is turned on.

Step 35: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 36: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 37: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 38: Make sure your iPad is turned on.

Step 39: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 40: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 41: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 42: Make sure your iPad is turned on.

Step 43: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 44: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 45: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 46: Make sure your iPad is turned on.

Step 47: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 48: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 49: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 50: Make sure your iPad is turned on.

Step 51: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 52: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 53: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 54: Make sure your iPad is turned on.

Step 55: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 56: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 57: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected". Your iPad and keyboard will automatically sync each time you power on the keyboard and the iPad together.

Step 58: Make sure your iPad is turned on.

Step 59: Toggle the power switch to the **ON** position on the right side of keyboard.

Both the power light and **Bluetooth** light will activate.

Step 60: Wait a full five (5) seconds before pressing the connect button on your keyboard. Once you press the connect button, the **Bluetooth** light will flash.

It appears on the screen, then press the enter key on your keyboard. Your keyboard is now synced with your device. If the passkey is entered incorrectly, the device will not pair. You will have to repeat Step 5 and re-enter the passkey through the **Bluetooth** menu on your iPad.

Step 61: Once the devices are successfully paired, the **Bluetooth** wireless Keyboard will be listed as "Connected

Charging Your Keyboard (Cont'd):

Your tyPad charges via a USB port located on the right side of your keyboard next to the power switch, see figure on page 4. Use the provided USB cord, attaching the small end to your keyboard and the larger end to any USB port for charging. A red indicator light will appear to confirm that the unit is charging. When the red indicator turns off, charging is complete. (Approximate charging time: 3.5 hours)

Troubleshooting and Tips:

If you are unable to sync the **Bluetooth** keyboard to the iPad, please try the steps below:

1. Make sure your iPad is turned on and working properly. Make sure your keyboard is turned on.
2. Press and release the connect button on the top right of the **Bluetooth** keyboard. The red light will flash.
3. Make sure that your iPad is within effective range of the keyboard --If your iPad is nested properly in the tyPad it is within range.

If the recommendations above do not solve the sync issue, reboot both your iPad and keyboard and try again. Follow the sync directions provided in this packet.

Please note that it may take up to 25 seconds for a new passkey to be generated.

TIP: When your battery is low, the power light on the keyboard will blink. You should charge your keyboard immediately to avoid losing data.

TIP: When your keyboard device is inactive, it will enter standby mode. The keyboard lights will turn off. Your keyboard is not broken or powered off. Press any key (do NOT press connect button) and wait three seconds and the keyboard will revert to its normal state.

Storage

To prolong battery life, always switch the power on the keyboard to OFF after each use.

Disposal Guidelines

The built-in keyboard for your tyPad contains a Lithium Ion battery that may require special disposal. Should you decide to discard your tyPad after use, please remove the rechargeable Lithium Ion battery and discard it in accordance with your state's battery disposal guidelines. Contact your local or county waste department or recycling facility to obtain the disposal requirements for your area.

Attention:

1. Keep away from sharp objects.
2. Do not put objects on keyboard.
3. Do not force or distort keyboard.
4. Avoid contact with liquid or food.
5. Do not drop keyboard.
6. Keys may be wiped gently with a damp cloth only. Do not soak the keys in water. Only clean the keyboard when it is powered OFF.

FCC Caution: Any change or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a class B digital device.

Pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy. If not

installed and used in accordance with the instructions, it may cause harmful

interference to radio or television reception. This can be determined by turning the

equipment off and on. The user is encouraged to try to correct the interference by
