Pre-caution

Safety and Handling Information

Be sure to carefully read the operating instructions and adhere to the safety precautions before using your M7 MultiPAD to ensure correct usage and user safety. Cydle Corporation will not be responsible for incidents that occur due to failing to follow instructions presented. This information applies to all Cydle Corporation products.

Operating in a safe place:

This product should be used for personal use only and used as intended in accordance with the user's manual. Do not operate or adjust settings while driving, cycling, or walking near traffic. Stop using the M7 MultiPAD if you find it disruptive or distracting while operating any type of vehicle, or performing any other activity that requires your full attention. Check and obey the applicable laws and regulations on the use of earphones and devices such as M7 MultiPAD in the areas where you drive or ride. Be careful and attentive while driving.

Proper handling:

Do not drop, disassemble, open, crush, bend, deform, puncture, shred, microwave, incinerate, paint, or insert foreign objects into M7 MultiPAD. Unit contains electronic components that can be permanently damaged when exposed to shock or vibration. Please keep your unit in a stable place and avoid dropping the unit. Do not operate unit in high-shock and high-vibration environments. Do not attempt to take apart, open, service, or modify the product. Refer all servicing to qualified personnel.

Repair

Clean only with cloth dampened with water, gently wipe dry with dry cloth. Do not apply liquid directly to the unit. Never attempt to repair or modify the M7 MultiPAD yourself. If the M7 MultiPAD has been submerged in water, punctured, or subjected to a severe fall, do not use it until you take it to an Cydle Authorized Service Provider. The M7 MultiPAD doesn't contain any user-serviceable parts. Disassembling the M7 MultiPAD, including the removal of the back cover, may cause damage that is not covered under warranty.

Customer Service contact

For service information, please visit our support center at www.cydle.com
The rechargeable battery in M7 MultiPAD should be replaced only by an Cydle Authorized Service Provider.

Pre-caution

Important safety Information

■ Caution: Power Adapter Usage

When using the Power Adapter to charge the M7 MultiPAD, make sure that the Power Adapter is plugged into the power outlet. Do not connect or disconnect the Power Adapter while hands are wet. Do not use any other Power Adapter other than the AC/DC Power Adapter certificated by Cydle to charge your M7 MultiPAD. (Make sure that the rated Voltage of the M7 MultiPAD is 5V)

The Power Adapter may become warm during normal use. Always allow adequate ventilation around the Power Adapter and use care when handling.

■ Unplug the Power Adapter if any of the following conditions exist:

1. The power cord or plug has become frayed or damaged.
2. The adapter is exposed to rain, liquids, or excessive moisture.
3. The adapter case has become damaged.
4. You suspect the adapter needs service or repair.
5. You want to clean the adapter.

■ Caution: Battery Care & Recycle regulation

RISK OF BATTERY
EXPLOSION

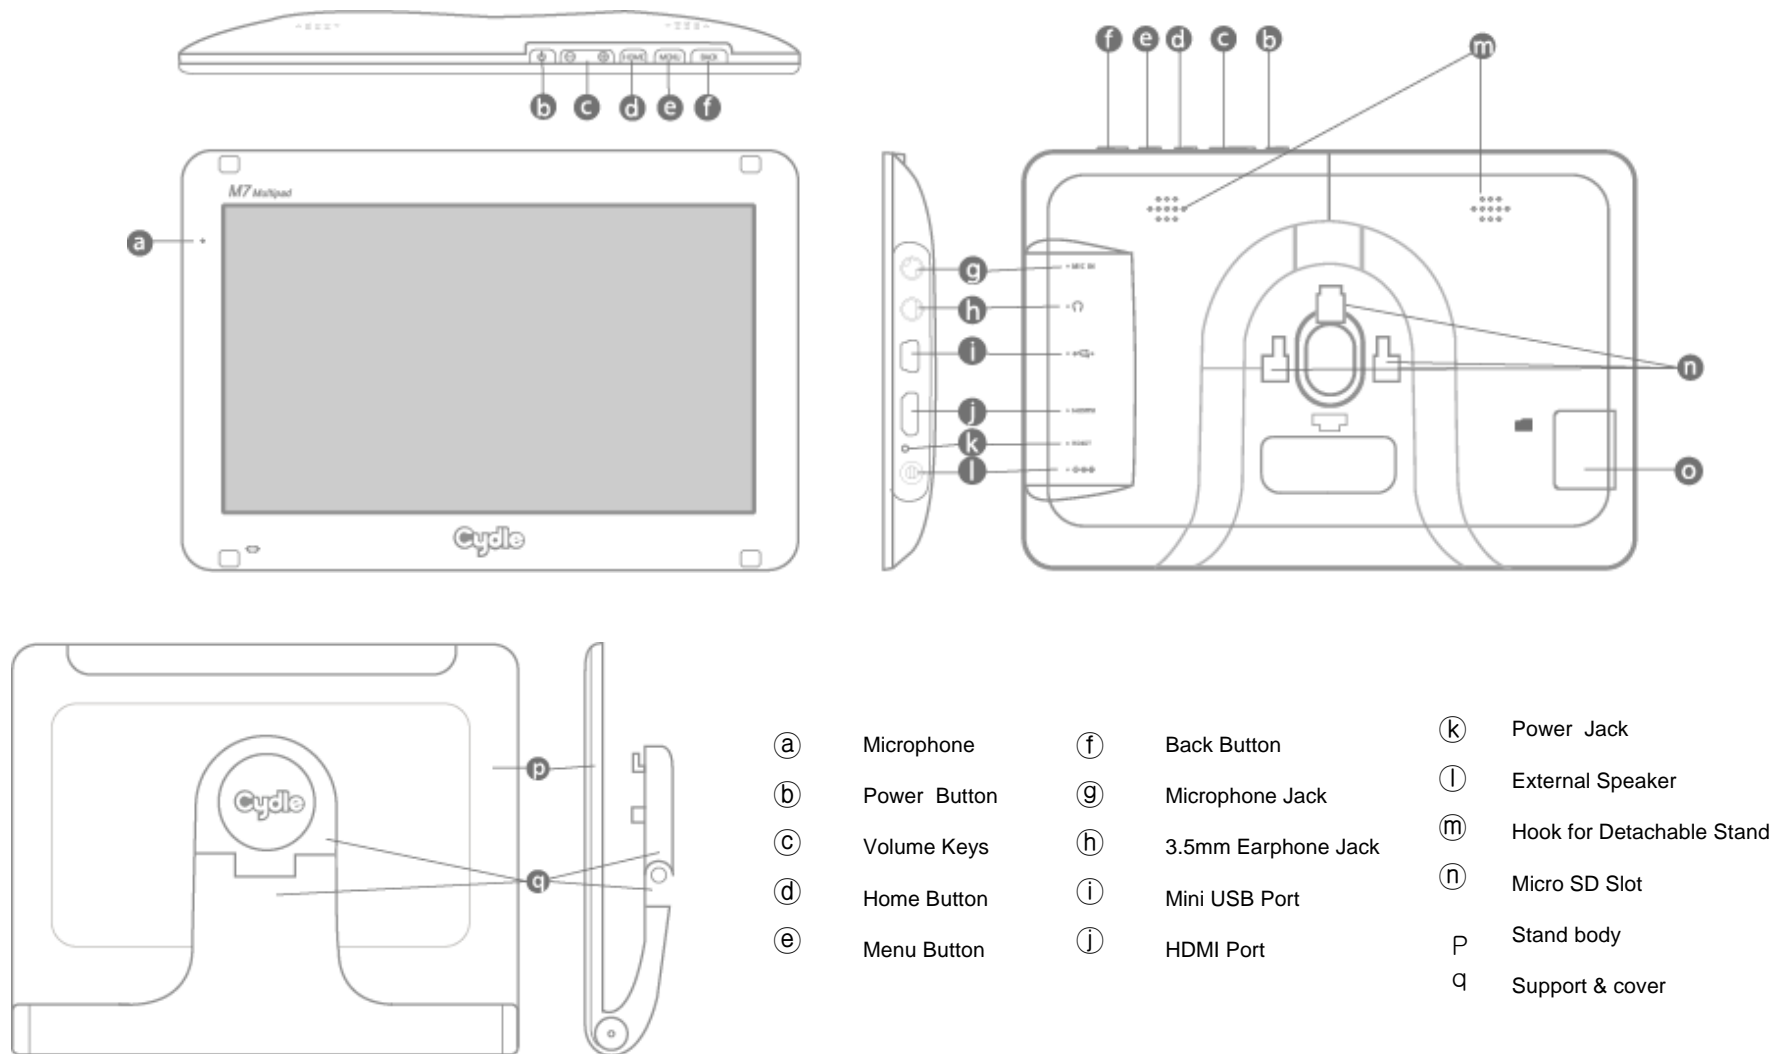

THERE IS A RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.

This unit contains materials such as battery, circuit boards, cables, electromagnetic compatibility gaskets and connectors which may contain lead and copper/beryllium alloys that require special handling and disposal at end of life. Before this unit is disposed of, these materials must be removed and recycled or discarded according to applicable regulations.

M7 MultiPAD at a Glance

Before you start

Battery

Charge the M7 MultiPAD with the original Power Adapter included in the box.

Use only the adapter(5V,2A) included in the box.

Charging the Battery

1. The Power Jack is located on the bottom right of the unit.
2. Plug in the Power Adapter to the Power Outlet.
3. Connect the Power Adapter to the M7 MultiPAD.
4. The M7 MultiPAD will begin charging. The Battery Icon will change to the Charging Icon on the top right of the screen.

Understanding Battery Status

When the M7 MultiPAD is connected to a power source, the battery icon changes to show that the battery is charging or fully charged.

	Battery charging (lightning bolt).
	Battery fully charged with Power Adapter connected.
	Battery fully charged without Power Adapter connected.

When the M7 MultiPAD isn't connected to a power source, a battery icon on the M7 MultiPAD screen shows approximately how much battery life is left.

	Red is shown when battery is less than 10% remaining.
	Yellow is shown when battery is more than 10% or less than 20% remaining.
	Green is shown when 20% or more is remaining.

Use Battery

The charge time can vary but when the M7 MultiPAD battery has completely depleted, expect about 5 hours to charge the M7 MultiPAD completely.

The charging time can be different when using the M7 MultiPAD while charging.

Before you start

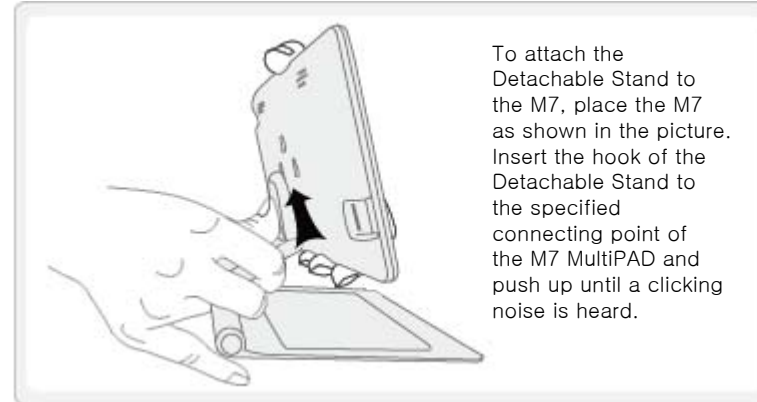

Detachable Stand

Use the M7 MultiPAD Detachable Stand to set on top of the desk for a hands free operation or use as a Screen Cover when collapsed, to protect the LCD screen when mobile.

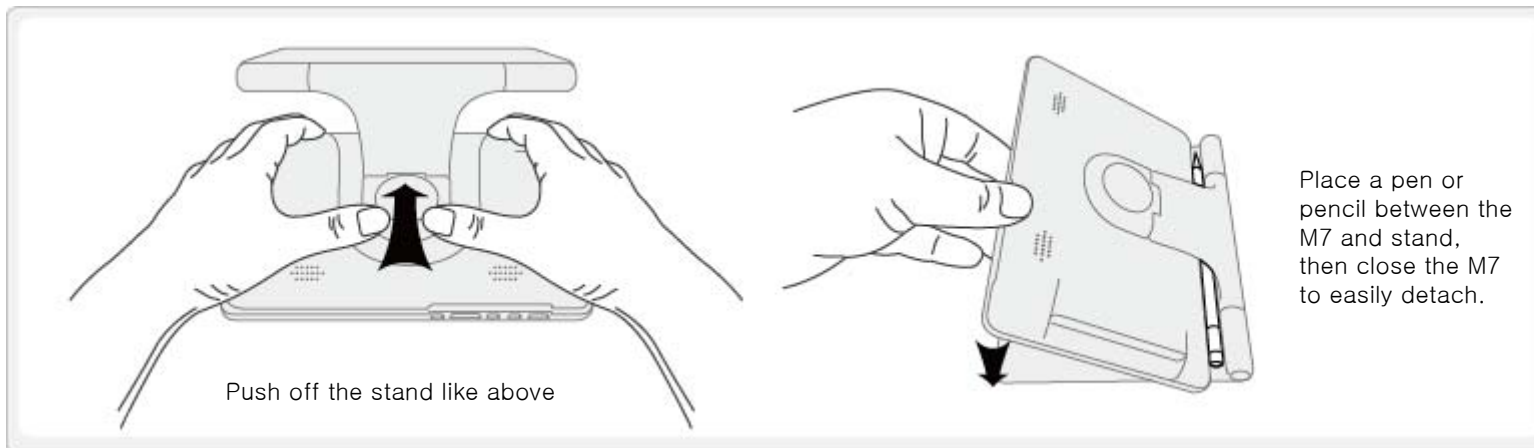

How to turn the stand

How to attach the stand

How to detach the stand The Detachable Stand can be easily disassembled using the following 2 options:

 **WARNING:** For user safety, users must follow the instructions outlined in the manual and proceed with caution when detaching the stand. All damages resulting from failing to follow the outlined instructions will be the responsibility of the user.

Getting Started

■ Turning the M7 Multi PAD On/Off

To turn Power On/Off, press the Power Button for 3 seconds, located on top of the unit.

Unlock:

Slide the Green Lock Icon up to green spot to unlock the screen.

Sleep Mode:

Press the power button to activate Sleep mode.

To activate the screen again, hold the power button for 3 seconds.

■ Home Screen and Applications Tab

The Home Screen is what you see when turning on the M7 MultiPAD. It gives you access to shortcuts, widgets and more. The Home Screen expands further by dragging the screen to the left or right.

The M7's LCD is a Resistive Touch Screen so utilizing a stylus pen might be more convenient to control the screen.

Getting Started

► FCC Declaration of Conformity

This Device Compiles with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1) This Device may not cause harmful interference, and 2) This Device must accept any interference received, including interference that may cause undesired operation.

FCC ID: YXQM7

This product passed and certified by CE

FCC Notice

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES.
OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS:
(1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND
(2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED,
INCLUDING INTERFERENCE THAT MAY CAUSE UNDERSIRED OPERATION.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE : This unit was tested with shielded cables on the peripheral devices. Shielded cables must be used with the unit to insure compliance.

NOTE : The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
