

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a white test bench holds a spectrum analyzer. To its right, a power line with a red and blue ground wire runs vertically. A power strip is mounted on the wall. On the floor, a small electronic device is connected to the power line. To the right, a wooden table is partially visible.
Radiation Emission View (Below 30MHz)	 A photograph of a radiation emission test chamber. The walls are covered with white absorber panels featuring black cross patterns. In the center, a white test table is positioned within a black frame. The floor is marked with yellow and blue safety tape. A small black object is on the table, and a silver canister is on the floor.
