## **1. Introduction**

Congratulations on the purchase of the player!

This device is built-in high performance Wi-Fi receiver module, G-sensor, also can bring you into the portable media player world and fulfilled your entertainment needs. It can support picture, video, music, E-book, games, online chat and other functions; moreover, various settings will fully show your individuality.

This manual contains important safety and operating information in order to prevent accidents, please read this manual thoroughly and keep it for future reference.

## **2. Safety precautions**

- To use this player safely, please read and follow the instructions in this manual carefully before use.
- Never use the player while driving or when operating any vehicle, as this could cause an accident. It is also against the law in many areas. Take care when using the player outdoors, especially when crossing the street.
- Do not listen to music at very high volumes using the earphones as this can permanently damage your hearing.
- Keep the player clean and never store it next to a heat source or in dirty, humid or wet places. Keep it out of direct sunlight.
- Do not put the player in high temperature places (over 40°C), especially not in a car with the windows closed in summer.
- Keep the player away from strong magnetic fields.
- Please don't turn on the device in where the wireless equipment is forbidden or when the usage of the device will cause interference and danger.
- Press the player's buttons gently. Pressing them or the screen too hard can damage the player.
- Do not use the player in an electronics-prohibited area, such as in an airplane.
- Do not use the player in an extremely dry environment, as this can lead to static discharge, which can damage the player.
- Do not subject the product to harsh impacts.
- Do not drop the appliance. This may result in damage to the product.
- Do not attempt to dismantle or repair this unit yourself, Repairs should only be performed by qualified personnel only.

- We will not be responsible for any memory loss caused by product damage, repairs or other reasons.
- Disconnect the appliance from the power source when cleaning.
- In order to prevent program failure, never disconnect the player suddenly from a PC during downloading, uploading or formatting to prevent program failure.
- Use a slightly damp, lint-free cloth to clean this appliance. Do not dismantle the player or use alcohol, thinner or benzene to clean the surface of the player.

### 3. General View

## 9. Troubleshooting

Problem	Solution
The device will turn itself off after a few seconds	Check that the battery is charged.
No volume is heard	Adjust the volume level Check if audio file is broken

Screen is hard to see in bright light.	Adjust the screen brightness in the system menu. Avoid using the reader in direct sunlight.
Data on the screen is corrupted or a program is not responding properly	Use thin object like a paper clip to perform a reset to restart the device
Can't copy file into the device	Check if the device is connected to the computer correctly. Check if the memory space is full. Check if the USB cable is broken

### **FCC Compliance Statement:**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference

received, including interference that may cause undesired operation. Information to user.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. In cases where the manual is provided only in a form other than paper, such as on a computer disk or over the Internet, the information required by this section may be included in the manual in that alternative form, provided the user can reasonably be expected to have the capability to access information in that form.

**This device has been tested and meets the FCC RF exposure guidelines.  
The maximum SAR value reported is 0.790w/kg**

conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

NOTE: This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from the one to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
