Re: FCC ID: Z5W-105002

Applicant: Damm Cellular Systems A/S  
Correspondence Reference Number: 42830  
Form 731 Confirmation Number: EA657517  
Date of Original E-mail: 10/31/2012

Dear Applicant/Agent:

I have reviewed your 10/29 reply. Please revise the specification section of Form 731. If you have trouble making changes, please reply with specific and detail instruction on what changes you would like us to make for you. It is inappropriate for me, as the reviewer, to modify your application without your explicit instruction.

Note that the above power information will appear on the certificate. Therefore, please verify with the applicant before making changes, especially if a power level is limited to a specific roll-off factor.

**Please see the attached modified 731 form. If you would please change it as the system to my knowledge won't allow us to. Please see page 2 of the 731 for specific changes in the emission designator, frequency range, and power output.**

The items indicated above must be submitted before processing can continue on the above referenced application.

Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee pursuant to Section 1.1108
