Re: FCC ID: Z5W-10520101

This is to attest that, although the device represented by the above FCC identifier is capable of operating over the entire frequency range 72 - 76 MHz, only the authorized frequencies in Part 22 and Part 90 will be programmed for use in the United States. Regulated parameters are programmed by the manufacturer and cannot be modified by the user. In accordance to 90.203(e), there are no external controls that allow the user to use or program frequencies that are not programmed by the manufacturer, service, or maintenance personnel.

Authorized Frequencies:

Frequency band (MHz)	FCC Rule Part
72 - 73	22, 87, 90, 95
73 – 74.6	Not applicable
74.6 – 74.8	90
74.8 – 75.2	87
75.2 – 75.4	90
75.4 – 76	22, 87, 90, 95

The entire contiguous frequency range 72 - 76 MHz will be listed on the FCC Grant to reduce the number of entries.
