Hybrid Bluetooth Active Noise Cancelling

1 Introduction

1.1 Overall Introduction

1. This product is an overhead and lightweight headset which adopts Bluetooth technology, guarantees finest sound quality and clear voice chat.
2. The transmitting & receive distance exceeds 10 meters (straight line) in the open-air condition.
3. High performance Li-ion battery supports approx. 49 hours working time.
4. Better Active noise cancelling (ANC) effect to reduce the low-frequency noise.

1.2 Product Application

1. For PC with Bluetooth function, this product is an audio system to have the automatically wireless connection used for music play.
2. That compatible the varied communicate / Chat platform with clear voice.
3. Compatible with most Bluetooth-enabled mobile phones for wide-ranging use.

2 Product Description

2.1 Feature Summary

1. Comfortable and light weight headset design to meet the MMI (Man Machine Interface) engineering such as soft flexible headband design.
2. Bluetooth wireless technology to provide the stable and good connection without cable.
3. Exceed 10 meters wireless transmit and receive distance.
4. Ear cup can be rotated in left, right, up and down direction to make more comfortable.
5. Concealed Microphone design with higher sensitivity.
6. Remote call connection and disconnection and more operation functions of Bluetooth.
7. High performance and longer use life battery to make sure the working time.
8. Active noise cancelling function to make sure you can focus on music and work

2.2 User Interface

- 1. ANC LED
- 2. ANC ON/OFF
- 3. Charging LED
- 4. Type-C Port
- 5. Power LED
- 6. Power ON/OFF
- 7. Volume control down
- 8. Volume control up

Getting started with B097

- 1. To get started using headphone, first you need to charge the battery. After you power it on, then you can pair to your Bluetooth- enabled phone, tablet or laptop. Once headphone is paired, you can immediately start taking and managing calls or listening to music.

Gaming mode	Connect with your device by Bluetooth		
Feature	Device Status	Operation	Details
Game mode	Power on	Press and hold the ANC button for 3s	Open Game mode, with Voice "Game mode". ANC LED will light white and Blue blinking alternation.
Exit game mode	Power on	Press and hold the ANC button for 3s	Open Game mode, with Voice "Exit game mode". ANC LED turn off.

3 Product Specifications

3.1 Technical Data Sheet

Type	Feature	Description or Detail
Bluetooth	Version	5.3
	Pair name	B097
	Operated distance	Over 10m
	Transmission Range(Hz)	2400-2483.5mHz
Active noise cancelling (ANC)	ANC effect:	30-35 dB

Speaker	Diameter	$\Phi 40 \pm 0.3 \text{ mm}$
	Frequency Response	20Hz-20KHz
	Impedance	$32 \Omega \pm 15\%$
	Sensitivity/S.P.L.	$120 \pm 3 \text{ dB}$ (at 1K Hz, IEC318 test)
	Rated Power	10 mW
Battery	Type	Chargeable Li-ion Battery
	Capacity	500 mAh
	Work time	49 hours (ANC OFF)
		29 hours (ANC ON)
	Charge time	2.5 hours
	Charger current	328mA

Charge cable	Plug	TYPE-C
	Length	0.8 m

FCC NOTICE

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction

Hearing protection

1. This phone respects the current regulations for limiting the maximum output volume. Prolonged headset listening at high volume could lead to hearing damage!
2. Stop using the product or lower the volume if you feel your ears ringing.
3. Do not turn up the volume too high, doctors warn against prolonged exposure to high volume.
4. Excessive sound pressure from headsets and headphones can cause hearing loss.
5. To prevent possible hearing damage, do not listen at high volume levels for long periods.
6. Please only use specified headphones .
