

LEVEL VISION ELECTRONICS LTD.  
550 CHEMIN DU GOLF, SUITE 202  
ILE DES SOEURS, QC  
H3E 1A8

To whom it may concern,

This is an official letter of instruction on behalf of Level Vision Electronics Ltd. That states that the Model T800 - FE6 - MUSN that has been tested by US-Tech Lab, represented by George Yang, from US Tech - A Scientific Trend Company with its offices located at 3505 Francis Circle, Alpharetta, GA 30004, 770-740-0717 (ph), 770-740-1508 (fax) has not been built with the reserved circuit in the block diagram "3.5GHz Module EM770" including a SIM card slot, has not been and will not be integrated into the device, nor sold in the North American market, in which such certification and additional testing is required.

I would like to offer assistance as well as my direct line if you have any additional questions so please feel free to contact me directly if need be.

Jay F. Lefebvre
