The CC2500EM is a development tool for proprietary solutions in the 2.4GHz ISM band. The CC2500 is a transceiver solution tailored for very low power wireless applications.

The CC2500EM board is equipped with a 2.4 GHz whip antenna, W1010, from Pulse. The board does not have any form of housing or cover. The CC2500EM is an engineering development board and cannot be used in an end product.

Texas Instruments Norway AS requests Nemko AS to do all necessary testing on the CC2500EM to be FCC certified according to FCC CFR 47 Part 15.247 for systems operating in the 2.4GHz ISM band.

A handwritten signature in blue ink, appearing to read 'Magnus Wines', written over a horizontal line.
