The CC2541S BoosterPack is a development tool for Bluetooth low energy applications in the 2.4GHz ISM band.

The CC2541S BoosterPack has an on-board PCB meandered inverted F type antenna. The CC2541S BoosterPack is an engineering development board and cannot be used in an end product.

Texas Instruments Norway AS requests Nemko AS to do all necessary testing on the CC2541S BoosterPack to be FCC certified according to FCC CFR 47 Part 15.247 for systems operating in the 2.4GHz ISM band.
