

RADIO Using The Main Unit**Best Station Memory**

While in FM1 if you press the FAST FWD button the radio will start scanning from low to high frequencies. Each strong station found will be stored in a preset button until all 27 FM presets are full. You can also do this with the AM band. There are 18 presets available for the AM band.

While in FM1 if you press the FAST RWD button the radio will scan frequencies from high to low and store stations until all available presets are full. This will also work on the AM band.

Weather Band Reception

Press the BAND button to select the Weather Band.

Once the unit is set on the Weather Band function, it will automatically search for an available station among the 7 preset US Weather Bureau frequencies. When the signal is not strong enough to receive the last weather band station, the unit will continue to search for another weather band station. The user can also manually select a weather band station by pressing any of the 1-7 preset number frequencies.

Note: Since the broadcasts are local weather and information, the transmission power is usually very low (much less than AM or FM stations) so you will usually receive only one station unless you are on the edge of two or more broadcast signals. The most you will receive is two or three and that is rare. Depending on where you are located, there is a possibility you will receive only a very weak signal or none at all. Also, similar to AM and FM signals, Weather Band signals are subject to surrounding conditions, weather, obstructions of the signal by hills or mountains, etc..

XM Satellite Radio (Optional)

See page 20.

Clock - Setting the time

To set the clock to current time do the following:

Turn the radio unit on.

Press and hold the CLOCK button for 5 seconds. Hour will flash.

Use the VOLUME UP/DOWN to set correct hour.

Press SOUND button move to minutes. Minutes will flash.

Use the VOLUME UP/DOWN to set correct minutes.

Press the CLOCK button to memorize.

CLOCK**

DVD/WMA/CD/MP3/MP4 Using the Main Unit

01-02-05:15

1. 2. 3.

It is Important to understand what is shown on the digital display:

1. Displays the Title of the DVD.
2. Displays the Chapter on a DVD or Track on a CD/MP3.
3. Displays the elapsed time on DVD, CD/MP3.

To Load a Disc

There are several ways to select and load a disc in the GT3.0(ZX800).

If you have left a disc in the unit you will have to press **FUNCTION** on the front panel until **DISC** shows on the display. If you are using the remote, press the **DISC** button. Either of these options will start the disc playing.

Another way to play a disc is to insert it into the slot. The unit will switch to disc by itself.

Eject a Disc

Regardless of which function is playing, if the eject button on the front panel or the remote control is pushed, the unit will stop playing and eject the disc. The unit will keep the disc in the slot with **EJECT** showing on the Digital Display.

If there is no disc inside the unit, a disc placed in the slot will be taken inside automatically with **LOADING** showing on the Digital Display.

REMARK: When the unit ejects and the disc isn't removed after 1 minute, the unit will automatically reload the disc. This feature protects the disc from being dropped and damaged.

DVD/WMA/CD/MP3/MP4 Using the Main Unit**Play / Pause**

Normally, when the unit accepts a disc with no Playback Control, the unit will play the disc from the beginning. When a Playback Control exists, the user needs to push the PLAY button to start to play the disc. If the user pushes this button again, the unit will pause the disc. To release Pause, push this button again, and play will continue.

Stop

When the unit is playing, push the STOP button to stop playing the disc.

Fast Forward / Fast Reverse

Regardless whether you use fast forward or fast reverse, (during DVD mode) there are 6 different speeds to select from: 1X_2X_4X_8X_16X_20X

To select a normal speed, push the PLAY button. The unit will immediately play the disc at a normal speed. On the unit the PLAY button must be pressed second time to Play from Pause

Previous / Next

Pushing the Previous button, the unit will play the disc from the beginning of the previous track. Pushing the Next button, the unit will play the disc from the beginning of the next track.

Setup

Press the SETUP button on the unit when the unit is in the Disc player mode. The screen will display the system setting menu. Navigate the Menu pages by using remote cluster buttons.

To Load USB and Memory Card Media

Insert USB device or Memory card into proper socket on the front of the radio to begin playing media. To view, navigate and select between music and video/photo media the TV or Monitor must be on and set to AV mode. Use remote cluster buttons to navigate on screen menu.

Because of variations in 3rd party recording methods some discs, USB devices or Memory cards may not play on this unit.

	FAST REVERSE / FORWARD Press to select different levels of Fast Reverse or Fast Forward. Press Play to resume selection.		

GT3.0(ZX800) REMOTE CONTROL OPERATION

POWER

Press "POWER" button to turn On/Off the power.

EJECT: To Eject Disc From Unit

When the unit is in Disc Play mode, pushing the "EJECT" button will eject the disc. When the unit ejects a disc and the disc is not removed after 1 minute, the unit will automatically reload the disc.

BAND

Push the "BAND" or "RADIO" button and the unit switches to Radio immediately. During radio mode, press "RADIO" again to switch receiving band.

NUMBER BUTTONS

Radio Mode: You can select one of the 9 stored stations on each band by pressing any one of the number buttons (1-9).

Disc Mode: You can select any track directly by using the number buttons (0-100+). For example, if you need track number 25, first press the number 2 and then the number 5 and the corresponding track number 25 will begin to play.

PROGRAM

CD/VCD Mode: You can set the program order to play, by following the steps below. Press "PROGRAM" button and the LCD displays programming P00:00.

You can set the program order to play them by using (0-100+) number button, and then press "PLAY/PAUSE" to play.

Note:

- (1) Program does not function in playing MP3.
- (2) CD Only- Allows you to re-arrange the playback order of the individual tracks differently from the order on the original disc.
- (3) If there are mistakes in programs, you can press "PROGRAM" button again then press "PROGRAM" button to play in order.

REPEAT

DVD Mode: Press "REPEAT" to repeat the current track being played. Press it twice to repeat playing all of the tracks.

CD, MP3, VCD Mode: Press "REPEAT" to repeat the current track being played. Press it twice to cancel the repeat function.

ZOOM KEY

DVD, VCD Mode: Press the "ZOOM" button once to enable 2X zoom mode. Pressing the "ZOOM" button repeatedly moves the zoom mode through 3X, 4X, 1/2X, 1/3X, and 1/4X zoom levels. Press "ZOOM" again to exit the zoom mode.

VOLUME

Press the "VOLUME" (+ or -) button to increase or decrease the volume level respectively.

MUTE

Press the "MUTE" button to turn off the sound in all rooms A, B, and C. Press it again to resume the previous sound levels.

MENU / DISPLAY

Quick press selects MAIN MENU.

Press "NAVIGATION" buttons to make your selection, then press "ENTER" button to confirm.

REMOTE CONTROL OPERATION**SOUND: Selector (Radio Mode)**

Repeatedly pressing the "SOUND" button moves you through 6 modes. VOLUME, BASS, TREBLE, BALANCE, EQ and TIME. Adjustment in anyone of these modes is done by pressing the "VOLUME" (+ or -) key.

DISPLAY On Screen Display (OSD)

CD/VCD/DVD Mode: Press the "DISPLAY" button and the OSD will show single track elapsed time, single track remaining time or entire disc time, It also shows the track being played and the amount of the whole disc.

MP3 Mode: Press the "DISPLAY" button and the OSD will show single track elapsed time only.

SLOW: Slow Advance / Slow Reverse

DVD Mode: Press "SLOW" button to enable 2X Slow Advance mode. Pressing the "SLOW" button repeatedly moves the slow mode to 3X and 4X slow advance. Continued pressing of the "SLOW" button will reverse to 5X Slow Reverse and 6X Slow Reverse. Press "SLOW" again to exit the slow mode.

VCD Mode: Press "SLOW" button to enable 1X Slow Advance mode. Pressing the "SLOW" button repeatedly increases the slow mode to 2X and 3X slow advance. Press "PLAY" button to exit the slow mode.

Note: The slow mode is not available for MP3 and CD media.

STOP: Stop the playback

DVD, VCD, CD Mode: Press "STOP" to suspend playback mode. PRESTOP will display on the TV Screen. Pressing "STOP" a second time will end all disc playback.

PLAY/PAUSE

Press "PLAY/PAUSE" button to suspend the playback of CD, MP3, MP4, VCD and DVD media.

Press it again to return to normal playback mode.

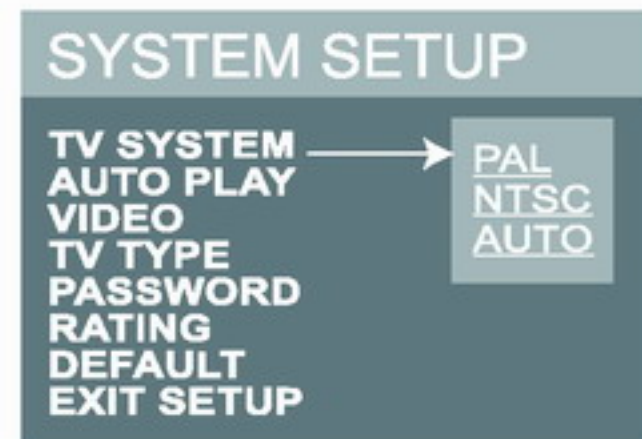

PREVIOUS / NEXT

DVD, VCD Mode: Press the "ZOOM" button once to enable 2X zoom mode. Pressing the "ZOOM" button repeatedly moves the zoom mode through 3X, 4X, 1/2X, 1/3X, and 1/4X zoom levels. Press "ZOOM" again to exit the zoom mode.

ZX700 LEARNING REMOTE CONTROL OPERATION**Learning Operation**

The remote is preset to work with the GT3.0(ZX800) when the "ZX700" button is pressed first. The remote is also capable of learning "TV", "Cable" and "Satellite" functions using the following instructions.

It is advised that you read steps 1 to 3 before attempting to program functions.

To Learn TV Functions do the following:

1. Point the top of GT3.0(ZX800) remote 2 to 3 inches from the top of the TV remote.

2. Press and hold the "TV" button on the GT3.0(ZX800) remote for 3 seconds and release when the "EJECT" button in the upper left corner lights red. This puts the remote in learning mode. Note: it will remain light for only 10 seconds
Reminder: The GT3.0(ZX800) remote will learn only one function at a time.
3. First let's program your TV's POWER button. While the "EJECT" button is lit press the GT3.0 (ZX800) "POWER" button and the red light will slow flash. Note: If 10 seconds has passed and the learn-ing light has gone out you will have to start back at #2. While this light is slow flashing, quickly press the POWER button on the TV remote. If the red light quickly flashes three times and then continues steady you have succeeded To memorize and to exit learning mode press "TV" on the GT3.0(ZX800) remote. To verify press the "TV" button on the GT3.0(ZX800)remote and then press the "POWER" button. The TV's power should come on. If not you will have to repeat the above process.
4. To continue to memorize more TV functions on the GT3.0(ZX800) remote do the following:
Press and hold the "TV" button on the GT3.0(ZX800) remote for longer then 3 seconds and release when the "EJECT" button in the upper left corner lights red. This puts the remote in learning mode. While the "EJECT" button is lit press the GT3.0(ZX800) "VOLUME UP" button and the red light will slow flash. While this light is slow flashing, quickly press the VOLUME UP button on the TV remote. If the red light quickly flashes three times and then continues steady you have succeeded. From this point you can continue to memorize any button using the same operation. When you are finished memorizing functions Press the "TV" button on the GT3.0(ZX800) remote to exit learning mode.

SAT, Cable Remote Learning

Press and hold SAT or Cable button on the GT3.0(ZX800) remote for more than 3 seconds and repeat above learning steps 2-4.

SIMPLE TROUBLESHOOTING GUIDE

Problem	Cause/Solution
No Power	<ul style="list-style-type: none"> Check and make sure whether the fuse is blown, replace fuse with proper value if necessary.
Some errors occur in the LCD or no function when pressing the button.	<ul style="list-style-type: none"> Turn off the unit and restart the unit again. Use Factory Default Restart.
Poor radio reception or static.	<ul style="list-style-type: none"> Antenna may not be the proper length. Make sure the antenna is fully extended. Antenna may be broken. Replace antenna. The broadcast signal is too weak. The antenna is poorly grounded. Check and make sure the antenna is properly grounded at it's mounting location.
Disc cannot be loaded	<ul style="list-style-type: none"> Disc is loaded in the machine. Clear the disc by pressing eject.
No Picture.	<ul style="list-style-type: none"> The Video line from the main unit to the TV is not connected properly. Check connections. Improper setting of the TV SYSTEM. Set the TV SYSTEM to "PAL" or "NTSC", according to the connected television.
Disc error appears.	<ul style="list-style-type: none"> The disc may be damaged or dirty. Clean disc and retry.
When there is no color on video.	<ul style="list-style-type: none"> Turn off the unit and restart the unit again. Use Factory Default Restart.

FACTORY DEFAULT RESTART

Press and hold FUNCTION button for 10 seconds - Unit will shut off. Restart unit by pressing the ON button. Factory defaults will be reset with this type of restart.

NOTE:

If any of the problems persist after check list has been made, consult your nearest service dealer. Never attempt to disassemble your unit by yourself.

WARNINGS AND PRECAUTIONS

WARNING

To reduce the risk of electrical shock, do not remove cover(or open unit). NO USER SERVICEABLE parts are inside. Refer servicing to QUALIFIED SERVICE PERSONNEL.

The design and manufacture of this player takes personal safety into consideration. However, any improper operation may result in electric shock, fire, or other hazard.

Due to the dangerous voltages inside the player, DO NOT open the cabinet by yourself to prevent electric shock. Please contact a professional technician to preform any service needed. Please use only components recommended by factory when replacement is necessary.

Please turn unit off when not in use.

Use a dry, soft cloth to clean face with the system turned off.

PRECAUTION

Moisture may cause the lens on loader in this unit to malfunction. To remedy the problem, turn unit on, eject disc and run 1-2 hours to vaporize moisture inside the unit.

Do not repeatedly turn unit off and on. After turning unit off wait 10 seconds before turning on again.

Do not use broken, scratched, or twisted discs in player. This could result in damage to the unit. Use only 5" 12cm discs in this unit.

FCC Compliance

15.19 Labeling requirements.

(a) In addition to the requirements in part 2 of this chapter, a device subject to certification, or verification shall be labeled as follows.

(1) Receivers associated with the operation of a licensed radio service, e.g., FM broadcast under part 73 of this chapter, land mobile operation under part 90, etc., shall bear the following statement in a conspicuous location on the device:

This device complies with art 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

(2) A stand-alone cable input selector switch, shall bear the following statement in a conspicuous location on the device:

This device is verified to comply with part 15 of the FCC Rules for use with cable television service.

(3) All other devices shall bear the following statement in a conspicuous location on the device:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warranty

ONE (1) YEAR LIMITED WARRANTY

The Manufacture warrants to the original retail purchaser of this unit that is or any part therein, under normal use and condition, be proven defective in material or workmanship within 1 year from the date of original purchase, such defect's will be repaired or replaced at the manufactures option without charge for parts and repair labor.

This warranty does not extend to the elimination of externally generated static or noise, to the correction as antenna-generated noise or to the cost incurred to correct this noise. The warranty does not cover the removal or the reinstallation of this unit or damage to any CD's, Speakers, accessories, or the vehicle's electrical system.

This warranty does not cover the cabinet appearance or apply to the unit or any part of the unit that, in the opinion of the manufacture, has been damaged through alterations, improper installation, mishandling, misuse, neglect, or accident, THE EXTENT OF THE MANUFACTURE'S LIABILITY UNDER THIS WARRANTY IS LIMITED TO THE REPAIR OR REPLACEMENT PROVIDED ABOVE , AND IN NO EVENT SHALL THE MANUFACTURE'S LIABILITY EXCEED THE PURCHASE PRICE PAID BY THE ORIGINAL BUYER FOR THE UNIT.

This warranty extends only to the original purchaser of the unit and is not transferable.

Some states do not allow limitations on how long an implied warranty lasts, and some states do not allow the exclusion or limitation on incidental or consequential damages, so the above limitation of exclusions may not apply to you. This warranty gives you specific legal rights.

To obtain repair or replacement within the terms of this warranty, the radio is to be delivered with proof of purchase and a description of the defect(s), freight prepaid to the original dealer or to:

ACCESSORIES

Input Options

The GT3.0(ZX800) has multiple input options. These inputs allow units such as Satellite TV, Cameras, VCR's and other audio video equipment to be connected to the GT3.0(ZX800). Optional wall plates are available for iPod's and XM Satellite radio. Multi-Input were also found installed in select coaches and trailers.

ZW100S
Wall Plate

XM Satellite Radio

ZW100S WALL PLATE

The ZW100S Wall Plate is an optional plate to be used with the Delphi SkyFI3 XM Radio Satellite Receiver.

INSERTING

To insert the receiver, press the center of the cradle as indicated at right. The cradle will tilt forward so that the satellite receiver can be loaded. Once in the cradle, push the receiver downward to make a positive connection. Do this gently so that no damage to the connections occur.

Push the top of the satellite receiver and cradle back into the wall plate until it locks into place. Use the FUNCTION button on the ZX700's Main Unit and select AU2 to listen to XM Radio through your entertainment system.

REMOVAL

To remove the SkyFI3 Receiver push at the top center of the unit until the lock releases with a click. Allow the receiver to tilt forward. Lift the receiver straight out of the wall plate.

XM Satellite Radio Subscription Required.
Receiver may be sold separately.

iPod Player

iPod Audio / Video Player

ZW150 iPod Wall Plate is an optional plate that can be used with any "dockable" iPod Audio or Video player.

INSERTING

To use your iPod with the ZW150 wall plate select the appropriate adapter to align your iPod player with the connector. Adapters included with the ZW150 are designed to allow your iPod to fit firmly into the wall plate.

With your iPod mounted in the carrier push the cradle as shown at left and it will tilt forward so that the iPod player with the carrier can be loaded.

Once in the cradle push downward to make a positive connection. Do this gently so that no damage to the connections occur.

Push the top of the iPod player and cradle back into the wall plate until it locks into place. Use the FUNCTION button on the GT3.0(ZX800) and select INPUT AV2 to listen to music or videos from your iPod player.

REMOVAL

To remove the iPod push at the top center of the unit until the lock releases with a click. Allow the iPod to tilt forward. Lift it straight out of the wall plate.

Adapter Plates

iPod Nano

iPod Mini

iPod Video

iPod is a registered trademark of Apple Computers.
XM is a registered trademark of XM Satellite Radio Holdings Inc.

ACCESSORIES

Wall Plates

FR-WP6RCA

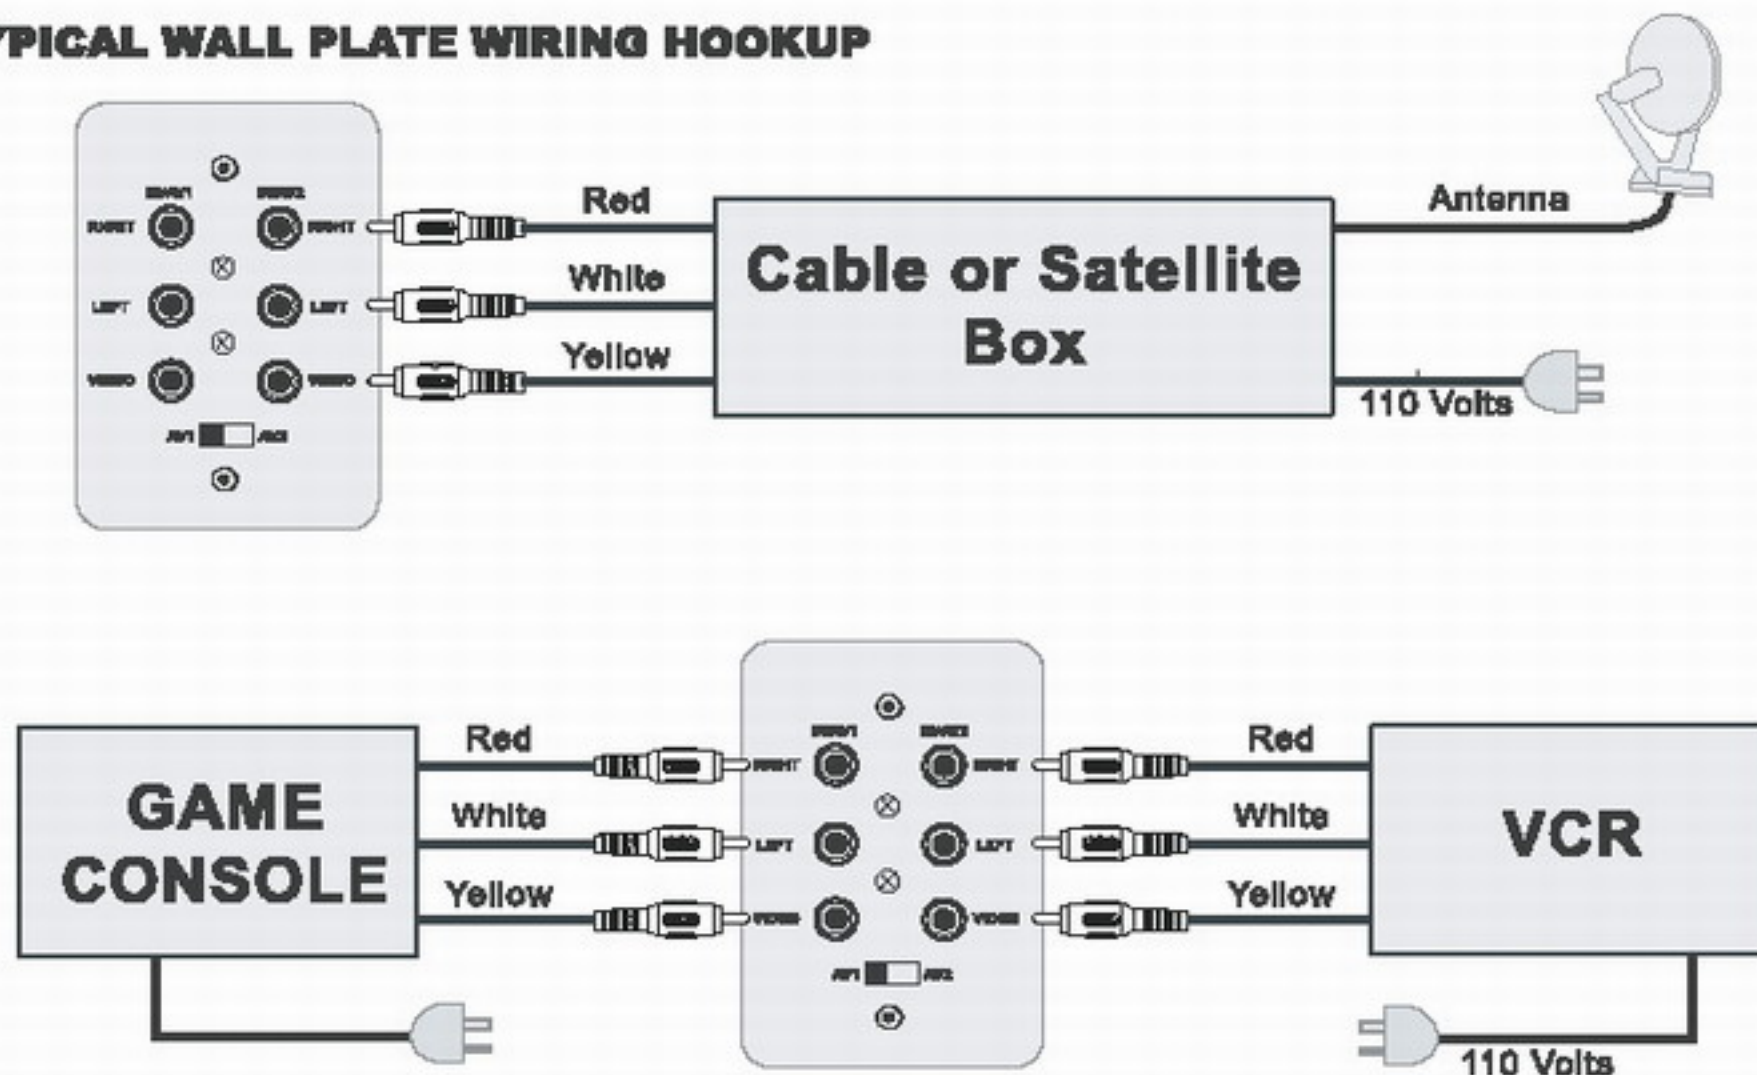

This wall plate is used for games and other Audio/Video Inputs. This plate is normally connected to INPUT AV1 on the GT3.0(ZX800). To use this plate, press the FUNCTION button on the radio panel until AV1 shows in the display. When using the remote control press the INPUT button until AV1 shows in the display.

Game consoles should be connected to the left side of the plate (IN / AV1). There is a right and left channel for audio and a video connection. Standard audio video cables with RCA male connectors can be used. Using the select switch on the plate select AV1 to play games.

VCR's, cameras, cable boxes or other audio video inputs can be connected to the right side of the plate (IN / AV2). Move the select switch to AV2 (to the right) when using this input.

TYPICAL WALL PLATE WIRING HOOKUP

ACCESSORIES

FR-WP8RCA

This wall plate, when installed, is used for multiple inputs. This plate is normally connected to INPUT AV1 on the GT3.0(ZX800). To use this plate, press the **FUNCTION** button on the radio panel until AV1 shows in the display. When using the remote control press the **INPUT** button until AV1 shows in the display.

Use the "Game" input for games only. Using the switch on the plate select Game.

For Cable or Satellite boxes use the "Cable/Satellite" center position on the plate and select Cable/Satellite on the switch.

For MP3 players or TV audio use the right side connections and select MP3/TV on the switch.

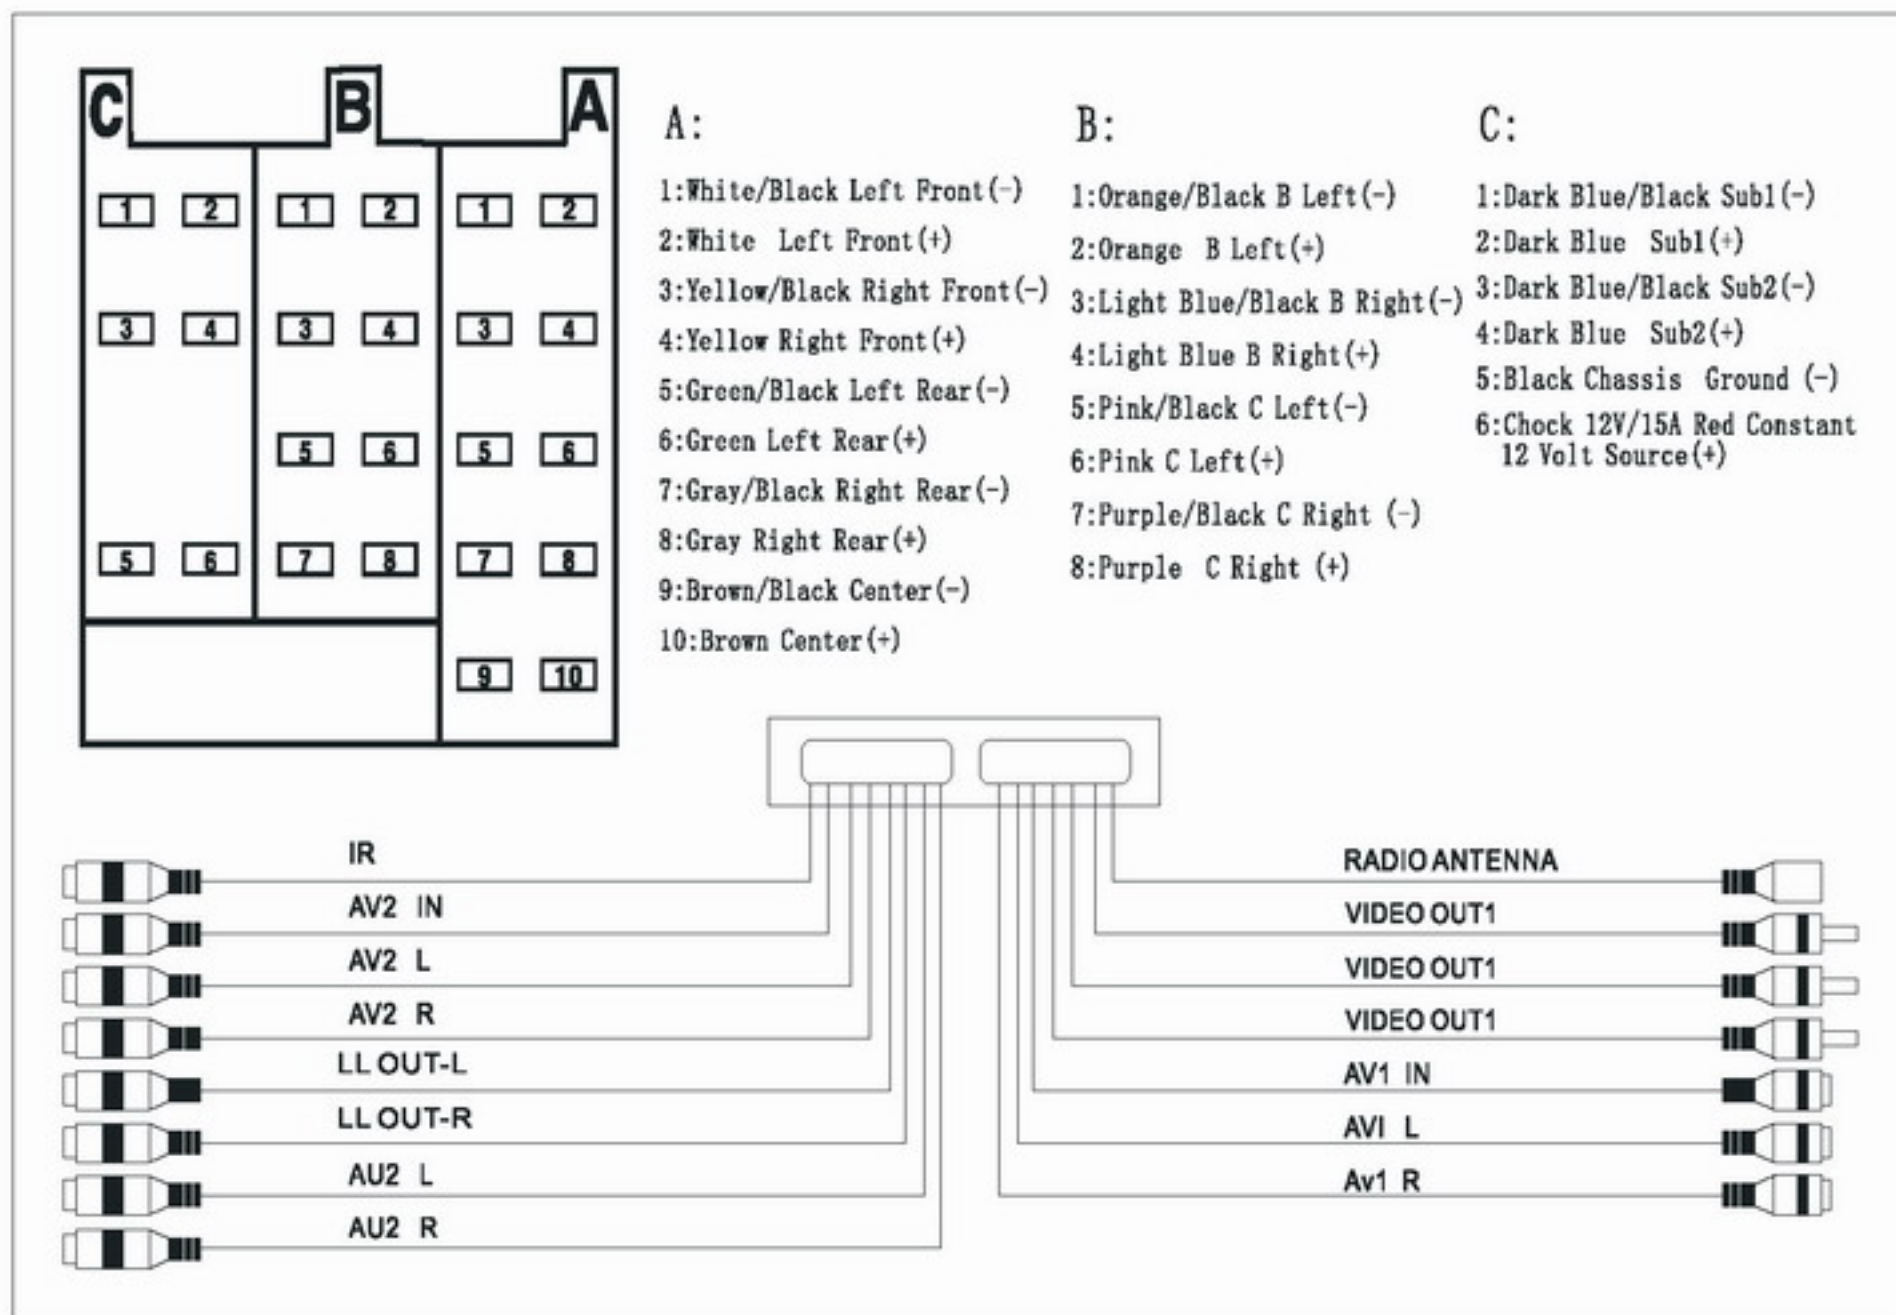

If the XM Satellite radio wall plate or the iPod wall plate is installed in your trailer or coach with this plate you must select XM/iPod on the switch for them to operate.

**TYPICAL WALL PLATE WIRING HOOKUP**

Note: XM or iPod Wall Plates wired directly to the back of the FR-WP8RCA wall plate.
