

SETUP PHOTOGRAPHS

This document contains 7 photographs

Photograph No.1
Setup for in band radiated emission measurements and out of band spurious radiated emission measurements below 30 MHz in the anechoic chamber

Photograph No.2
Setup for out of band spurious radiated emission measurements in 30 -1000 MHz
in the anechoic chamber

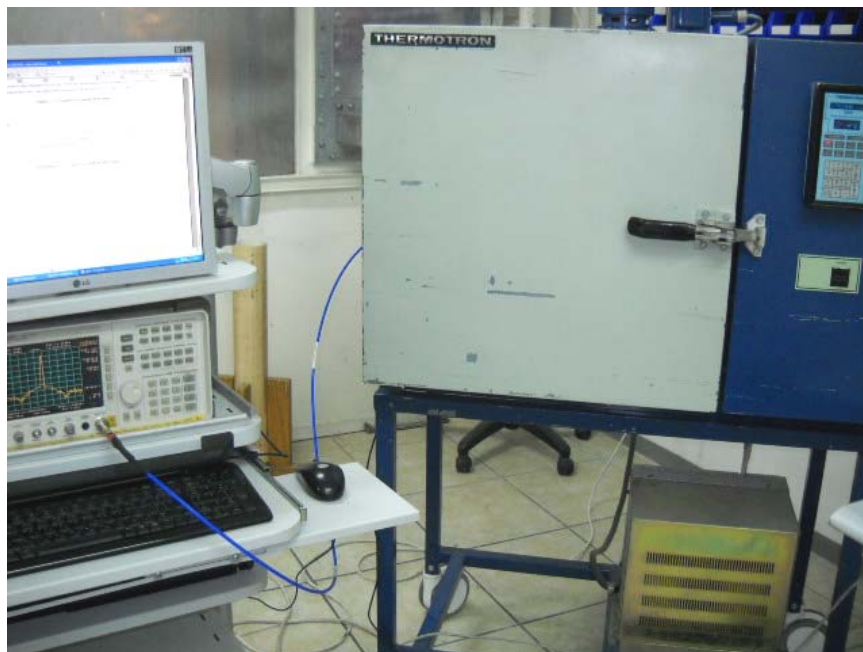

Photograph No.3
Setup for radiated emission measurements at OATS, general view

Photograph No.4
Setup for radiated emission measurements at OATS, EUT close view

Photograph No.5
Setup for frequency stability test

Photograph No.6
Setup for frequency stability test and occupied bandwidth test

Photograph No.7
Setup for conducted emission measurements in shielded room
