Gentlemen,

US Jetting, LLC respectfully requests confidentiality of certain materials provided with the submission of our remote foot pedal under FCC ID: ZC5022-GEN2-FP in accordance with FCC regulations 0.459. The confidentiality request applies to the following schematic diagrams, detailed block diagrams, detailed operational descriptions, parts list, and tune up procedures contained in this filing and included in the following files:

11-0009 Theory of Operation.pdf
11-0009 System Block Diagram.pdf
11-0009 Schematic.pdf

The "022-GEN2-FP" has been developed at considerable effort and expense by US Jetting, LLC. These items are considered as Trade Secrets and therefore public access to the proprietary material could result in duplication of equipment that could severely damage the company's business advantage.

I appreciate your assistance in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'N. Woodhead', written over a horizontal line.

Nick Woodhead
President
