Quick Guide

FCC regulatory conformance
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

RF Exposure

NOTE:

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

RF Exposure

This equipment complies with FCC radiation exposure limits set forth for uncontrolled environment.

Hereby, Liepinhing, declares that the radio equipment type EP-H5300 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.samsung.com

Product specification

Product name: Wireless Car Charger

Model: EP-H5300

Input: 5 V == 2 A ; 9 V == 1.7 A

(Support Q.C.0/3.0, P.D.0/3.0, A.C. Protocol)

Wireless output: Max 9W wireless power

Charging speed may vary depending on device model and condition of the adapter or cable.

Actual charging speed may vary depending on the actual usage, temperature inside/outside the vehicle, charging conditions, and other factors.

Operating temperature: -10~40°C

Correct disposal

This marking on the product, accessories or literature and/or without the bar on batteries indicates that the product, battery and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with the household waste.

EEC Yonetmeligi Uygunluk

This product is India RoHS compliant.

The product is in conformity with the Directive RoHS 2011/65/EU.

EU regulatory conformance:

RF exposure information:

The EIRP power of the device at

EM62749:2010.

RF exposure assessment has been performed

to prove that this unit will not generate the harmful EM

emission Recommendation (1991/59/EC).

RF Exposure

This equipment complies with FCC radiation exposure limits set

forth uncontrolled environment.

EU Regulatory Conformance

RF exposure information:

The EIRP power of the device at

EM62749:2010.

RF exposure assessment has been performed

to prove that this unit will not generate the harmful EM

emission Recommendation (1991/59/EC).

RF Exposure

This equipment complies with FCC radiation exposure limits set

forth uncontrolled environment.
