Application Shortcuts on Home Screen

< 6 >

Screen Interface

Main screen interface is similar to a computer desktop.

Place application shortcuts and widgets here.

Touch and "swipe" to go to next page, move things on the screen, etc.

Touch 2 fingers and spread apart or bring together to zoom pictures in and out.

Widgets

Press the screen for 1-2 seconds. The "Add to Home screen" menu will pop up offering you options to add widgets, change wallpaper, etc.
Deleting Application Shortcuts

Press and hold down the application button on the screen. The application list button will change to a trash can. Drag the application shortcut to the trash.

Status Bar

Pay attention to the status bar on the top of screen. If icons show on the left, it is a reminder that applications are running. On the right of the status bar, there are alarm settings, Wi-Fi connection, battery charge, etc.

< 7 >

Status Bar Icons

|			
	Mute		**Charging**
	Uploading / Downloading		**Finished Downloading**
	Alarm clock		**Wi-Fi Service** **Connected & Available**
	SD Card Nearly Full		**Playing Music**

When a prompt is displayed on the status bar, touch it to open the notification.

- Click selection window to open prompt message
- Click on the top of the column to read the full message
- Close the column

< 8 >

Application List

Click the Application List icon to show the application library.
Touch an application icon to start it up.

Press and hold the application icon and a shortcut will be added to the home screen.

Press the "Home" key in the application list interface to return to the home screen.
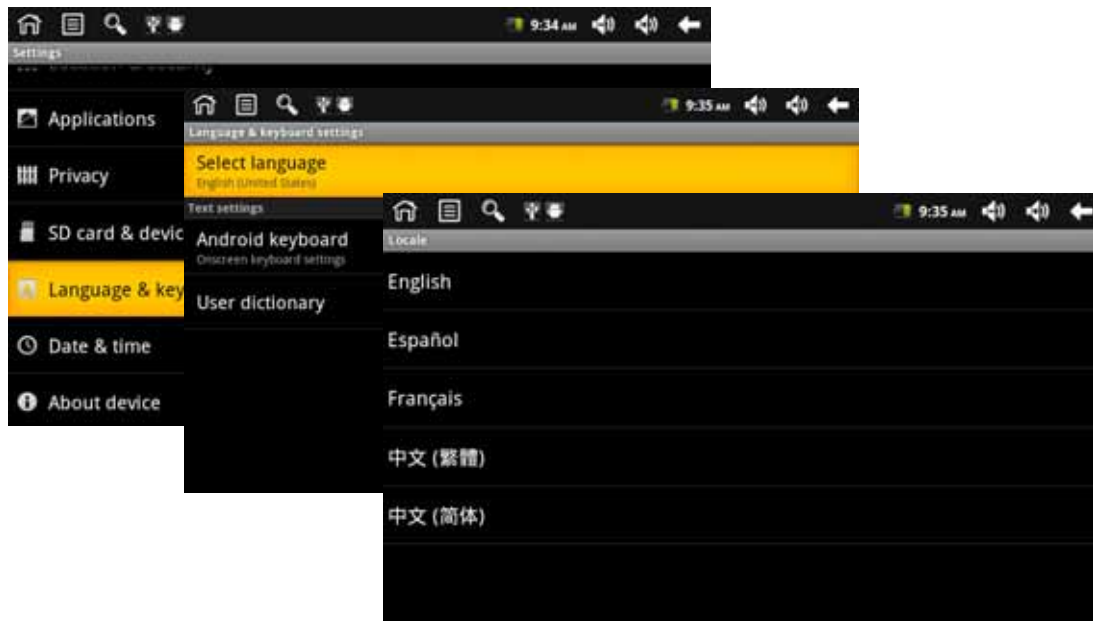

< 9 >

Settings

FCC Statement

FCC Caution:

This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

·Reorient or relocate the receiving antenna.

·Increase the separation between the equipment and receiver.

·Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

·Consult the dealer or an experienced radio/TV technician for help.

FCC Compliance:

·To assure continued compliance, follow the attached installation instructions.

·Use only the provided shield interface cables when connecting to computer.

Any unauthorized changes or modifications to this equipment would void the user's authority to operate this device.

This device complies with part 15 subpart B of the FCC Rules. Operation is subjected to the following conditions: (1)This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

- FCC Radiation Exposure Statement: The device has been evaluated to meet general RF exposure requirement.   The device can be used in portable exposure condition without RF striction.

This product may receive radio interference caused by mobile telephones or other products during operation. If such interference is apparent, please increase separation between the product and the mobile telephone or other product.

Industry Canada Requirement:

This Class B apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme á la norme NMB-003 du Canada.

Other names of systems and products mentioned in these instructions are usually the registered trademarks or trademarks of the manufacturers who developed the system or product concerned. The TM and ® marks are not used to identify registered trademarks and trademarks in these instructions.
